PA NEWC OBSERVES

Unless we have some April showers pretty soon, things won't look so good for the May flowers. The ground has become pretty dry again and the rivers are subsiding to low levels following the rainy spell of two weeks ago.

Although the days have been extremely warm during the past week, the nights continue fairly cool. A heavy frost was noted this morning when the temperature dropped to 30 degrees.

Pittsburgh will officially observe daylight savings time again this summer. Announcement has been made by the mayor that the observance will be started on April 28.

More and more, requests are being made from the townships for services of New Castle fire departments. There is no objection on the part of New Castle citizens in rendering this service, but it occurs to Pa Newc once again that some agreement should be made between the city and townships as to responsibility for the trips.

The new Epworth M. E. Church building at the intersection of East Washington street and Butler avenue, is beginning to give an idea of the magnificent appearance that the structure will present. Considerable work has been done in front of the church, and the exterior of the building is about completed.

Trees are developing rapidly the past few days, and if this warm weather continues for several days, leaves will be out on most all of the trees, it is indicated.

WILL NOT CLOSE LAWRENCE SCHOOL

School Board Rescinds Former Action On Wednesday Night

Latest Action Is Result Of Protest By Citizens Affected

Operation of the Lawrence elementary school at the corner of Liberty street and Mahoning avenue, in the Seventh ward, which the school board had planned to abandon with the close of the present semester, will be continued for another term at least, it was finally decided by the city's board of education last night.

The decision automatically rescinded the March 4 action of the board which called for the closing of the building in June. At their April 1 meeting the directors had moved to re-consider the abandonment, but laid it on the table until last night for final action.

Last night's vote to maintain the building during the 1931-32 term came after a short discussion in which each director expressed his individual view. Each had paid the school a visit since the last meeting.

Storm Of Protest

The re-consideration of the move to close the grade school was prompted by the storm of protest which residents of the district raised after the March 4 action was announced. At a meeting later in March a delegation from the ward appeared and made known its complaint.

Under the proposed plan, the

I met him while in Spain and he seemed just about the most "regular guy" you would want to talk to and everybody has had to admire his personal nerve.

Police Believe Butler Chinaman Killed By Tongs

Butler Laundryman In Business Ten Years Brutally Murdered

(International News Service)

BUTLER, Pa., April 16.—The brutal ice-pick murder of Yee Wing Lee, Chinese laundryman here, today was believed by police to have been committed by rival Tong members in expiation for some previous slight.

Ernest Wing, of Pittsburgh, secretary of the Hip Sing Tong there, claimed the victim's body which he identified as that of his uncle. He was at a loss to account for the warfare which may have flared up again between the rival Chinese orders. While suggesting to police that the gruesome death bore all the characteristics of a Tong murder, he declared peace between the several organizations had reigned for the past several months.

Lee had been engaged in business here for the past 10 years. A laundryman friend of the dead man was released after questioning by police. Officers announced they were without a single clue in the Oriental's death.

Many Trout Caught In County First Day

Wayne Sines of New Castle and C. W. Seiple, R. D. 3, Volant, hold the trout fishing "championships" for the first day of the season which was ushered in Wednesday. Sines caught 17 in the Slippery Rock and Seiple in Little Neshannock caught one which was 19½ inches long and weighed 2 3-4 pounds.

Sines and Seiple were only two of the hundreds who wended their way to the various streams in Lawrence county where considerable trout of all lengths over six inches and weight were caught. It was night impossible to visit any stream and find fishermen scarce.

Trying To Force Special Session Of U. S. Congress

Nye And Walsh Lead Demand For Special Session

PRESIDENT IS OPPOSED TO PLAN

(International News Service)

WASHINGTON, April 16. — The persistent demand for a special session of congress was renewed today when Democratic and Insurgent leaders declared existing governmental agencies are inadequate to relieve agricultural and unemployment distress.

Senator Nye (R) of North Dakota, and Senator Walsh (D) of Montana, united in demanding a special session. Both agreed the administration was without an adequate plan for carrying agriculture through another crop year and had failed in providing relief for unemployment. They insisted congress should be called into extra session to relieve unemployment and enact a farm relief measure, designed to save agriculture from another disastrous season.

Administration leaders opposed the suggestion as they did in the closing days of the last regular session. Senator Watson, Senator McNary (R) of Oregon, in declaring the country was benefitting by the vacation of congress.

Nye and Walsh left differently, demanding a special session.

But even they scarcely expect a special session. As Nye put it:

"I don't expect a special session, because the president does not favor one and he alone can summon it."

Exiled Spanish King Expects To Return Some Day

STEPPED ASIDE TO AVERT CIVIL WAR

Martial Law Is Proclaimed At Seville As Outbreaks Continue

By THOMAS A. LOAYZA
International News Service Staff Correspondent

MADRID, April 16.—The Republic of Spain, struggling to its feet under the guidance of provisional President Alcala Zamora, today remained technically a monarchy on revelation that Alfonso XIII, forced by popular demand to leave the country, refused to abdicate.

Without renouncing royal rights or signing the documents that would have wiped out the 1000-year old Bourbon dynasty, the adament king yielded to the advice of political leaders and stepped from the throne to avert civil war.

Intends To Return

But even as joy-mad Spaniards received with deafening cheers a manifesto of a constitutional government with a full bill of right, Alfonso served notice on political leaders that he remained King of Spain and intended to return.

The sharp statement of the departed monarch was kept from public eyes here, but monarchist circles accepted it as proof that the days of royalty had not yet vanished from Spain and predicted a return of their sovereign.

"I renounce none of my right," Alfonso was quoted as stating, "because they constitute a deposit accumulated by history, of which I shall have to render a strict account while in my keeping.

"Until the nation has spoken, I deliberately suspend the exercise of my royal power and depart from Spain, thus recognizing she is the sole mistress of her destinies."

Deny Nicaraguan Rebels Take City

Reports That Nicaraguan Seaport Has Fallen To Insurgents, Denied

(International News Service)

COLON, Panama, April 16.—Reports that Cape Gracias A Dios, a Nicaraguan seaport near the Honduran border, had been captured by insurgent forces were denied here today by United States navy officials.

The Tropical Radio company was working uninterruptedly with its station in the town, and had received no reports of disturbances.

It was learned today that the U. S. S. Sacramento was dispatched northward under emergency orders last night, presumably to Puerto Cabezas, where the situation remains threatening.

Navy officials refused to disclose the Sacramento's destination, but admitted fearing further outbreaks at Puerta Cabezas.

Abdication Of Alfonso XIII Ends A Turbulent Reign Begun At 16

Alfonso III was born May 17, 1886, in Madrid, capital of Spain, six months after his father, Alfonso XII, had died in his shooting lodge, at El Pardo. He was a puny infant

Hardened by mother's Spartan training, he became a youth of strong physique, during disastrous times for his country, as it lost cast possession in the Spanish-American war.

At 16 Alfonso took the oath as king—ending his regency of the Queen Mother, Dona Maria Christina. The young king, soon the object of assassins, boasted, "They may kill me, but I never will abandon the throne."

ALFONSO XIII

Seven attempts were made to kill Alfonso, the two most serious being (1) in Paris when riding with President Loubet of France, and (2) following his $10,000,000 wedding in Madrid to the English Princess Ugenia Ena of Battenburg, 24 spectators being killed.

Saved his throne in 1923 by supporting the late General Primo de Rivera, who proclaimed a dictatorship. He continued to stand by de Rivera's successor, General Damaso Berenguer, but finally even the clergy joined the Republicans.

Income Ananlysis Found Necessary Before Tax Cut

Rep. Hawley, Chairman Of Ways And Means Committee Makes Statement

LARGE DEFICIT IS NOW LOOMING

Income Tax Returns Uncertain, Vast Fluctuation Shown

BY WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, April 16.—Declining to join other Republican leaders in summarily squelching all proposals for a tax boost, Rep. Hawley (R) of Oregon, chairman of the house ways and means committee, said today a decision must be postponed pending analysis of tax returns.

Hawley's statement, the first he has made since the huge treasury deficit brought forth tax increase agitation, followed a conference with treasury officials.

The ways and means committee chairman went to the treasury hoping to get figures enabling him to make a study of prospective legislation during the summer. Instead he indicated, no definite course may be charted until fall.

Deficit Indicated.

The treasury, according to Hawley, doesn't know just where it stands. With a huge deficit indicated on July 1, the future cannot be estimated until a complete analysis is made of March 15 payments.

Experts now are seeking to determine, from March 15 returns, whether payments in the other three-quarters of the taxpaying year will show a greater or lesser drop from last year, he said.

Because of the vast fluctuation in incomes of individuals, due to the business depression, ordinary methods of estimating the future fail he added.

Await Reports.

"The treasury does not know just what deficit it will have on July 1," said Hawley. "It is estimated from $500,000,000 to a greater figure with an 'upward tendency.'

"Nor does it know what expenditures will be in the fiscal year after July 1, and cannot until departments submit their reports about that time.

"Tax returns in the remaining quarters are uncertainties, and all information needed to map a course for the future is complete at this time."

Lack of warmth in school-rooms is stated to affect the efficiency of the children, which is only half that of others working in well-warmed rooms.

You're the JUDGE

The young Willis Riggs and the even more youthful Mary Jane Putts had been "keeping company", as the phrase goes, for some time. But after a while young Riggs decided that he ought to go to another city to enter a school for the study of his profession. And because of his approaching departure he began to press his suit with Mary Jane with increased ardor and things were going along swimmingly. So it was that an agreement was reached that after Riggs returned from the college, which would be in five years, and begain to practice his profession, he would then take Mary Jane to be his wife. And young Riggs departed.

For five years he returned only intermittently, and at last he was graduated and he returned to town. But instead of marrying Miss Putts, he married someone else. Miss Putts wept bitterly, and after her tears were dry she went to a lawyer and filed an action on a promise to marry.

At the trial Riggs argued that the agreement on which Mary Jane was suing was one that could not be performed within one year of making it and so according to the statute should have been in writing.

Queen In Paris.

PARIS, April 16.—Queen Victoria, accompanied by all her children with the exception of the Infante Don Juan, arrived in Paris at 9:20 a. m. today.

Forced to leave Spain 25 years to the day after she entered that country in triumph as Queen of Alfonso, she was greeted here by a fervent group of friends and Royalist supporters.

Three hundred Spanish aristocrats bared their heads as the queen descended from the train with her children. All the women awaiting her in the reception party were dressed in black.

With difficulty, apparently under great strain and striving to press back her tears, Queen Victoria passed between two lines of Royalists. They seized her hands and kissed them.

Given Red Roses.

A huge bunch of red roses was presented to her as she walked out of the station preceded by Chief of Police Chiappe.

"Viva La Reina!" cried the children and the Royalist who followed her.

A crowd of 500 men and women nearly mobed the royal party despite police details as it reached the street. The police cordon was rushed aside as hundreds pressed forward to kiss the hem of the queen's dress.

Finally, to rescue Victoria from the mob, one of her attendants was forced to "push" her into the waiting automobile.

The car was unable to make a getaway, however, as the surging hundreds blocked all progress. Police finally succeeded in clearing a passage. The royal party then proceeded to the Hotel Meurice, where the exiles received another ovation from a waiting crowd.

Party Of 35 Persons.

The queen's party consisted of 35 persons. Twenty eight rooms were placed at its disposal by the Hotel Meurice on the first floor.

Each room was abundantly supplied with bouquets of roses and violets.

An officer of the queen's party stated:

"Her majesty's plans depend entirely on the king's orders, which have not as yet been received."

MANY TROUT CAUGHT IN COUNTY FIRST DAY

(Continued From Page One)

automobiles filled with fishermen could be seen motoring to the various fish luring places. This crowd was augmented by youthful anglers and some of them also carried the delicious "breakfast" home to their parents.

Seiple brought his big trout to New Castle where it was measured and weighed. It brought forth gasps of surprise from patrons of fishing. Sines caught his 17 in the Slippery Rock. The feature of this is that for several seasons fishing in that creek had not been so good due to pollution.

Many Big Catches

Albert Candioto came close to capturing the "championship" from Sines as the Florence avenue fisherman caught 16 in Taylor Run and his brother, Thomas Candioto caught eight. In size, they report, the trout were between seven and 10 inches long.

Mr. and Mrs. R. M. Osborne of 201 Hillcrest avenue visited Wolfe Creek in Mercer county and returned with a fine mess. They caught 11 and they ranged from eight to 11 inches. Joe Cargill caught three in the Neshannock near Volant and Lou Walzer, North street caught five in Elliott's Run.

The foregoing are but a few of the reports received from the first day's trout season but prove conclusively that the streams of the county have been stocked and that a close supervision is maintained and that the sport of sports was ushered in fittingly.

All of the fish protectors of the county were on duty. It is reported that undersized fish were caught in some instances and returned to the stream. Trout must be six inches and one patron is allowed to catch 25 but so far the limit has not been caught here.

Conditions are not exactly liking to the trout. The water in most of the streams is low and too clear. According to veteran trout fishermen murky weather and deep holes is to trout's liking. They feed on the "riffles" in the morning and evening.

BICYCLE FOUND.

John Montgomery, 201 South Walnut street, reported to the police Wednesday that he had his bicycle on the front porch of his grandmother's home, 201 South Walnut street, when some unknown person stole it. He reported later that it had been found.

THE MOON AND THE CALENDAR MONTH

By Arthur DeV. Carpenter

When the moon arrives on the same meridian as the sun as seen from the earth, it is said to be in conjunction. A week later the moon is 90 degrees east of the sun, as observed from the earth, known as quadrature; another week and the moon is in opposition or 180 degrees east of the sun on the celestial sphere; a third week and the moon is in quadrature again approaching the sun; a fourth week and the moon is back in conjunction with the sun again. This synodic month, as it is called, just described, is the origin of our calendar months, each constituting very nearly 1-12 of a year.

WILL NOT CLOSE LAWRENCE SCHOOL

(Continued From Page One)

Lawrence school enrollment was to have been divided, half of the boys and girls becoming Terrace avenue pupils and half going to Mahoning.

A steady decrease in attendance figures had moved the board to close the school. Better facilities for educating, it was shown, could be had by sending the pupils either to Terrace or Mahoning.

The residents, represented by the delegation which appeared, argued that the abandonment would work a severe hardship on the pupils and force them to face a greater amount of traffic hazards each day.

When the matter arose last night, President Daniel Woolcock immediately called for a vote. J. H. McIlvenny moved that the board's former action be rescinded and the school continued for another year, and A. C. Hyde seconded his motion. The vote in favor of it was unanimous.

Action of the directors last night formally closed the matter, and next September when the fall term commences the Lawrence school will open as usual.

Piles Go Quick

Without Salves or Cutting

Thousands of sufferers from itching, bleeding or protuding piles have learned that quick and permanent relief can only be accomplished with an internal medicine. Neither salves nor cutting remove the cause.

Bad circulation of the blood in the lower bowel causes piles. The veins are flabby, the bowel walls weak—the parts almost dead. To end Piles an internal medicine must be used to stimulate the circulation, heal and restore the affected parts.

Dr. J. S. Leonhardt was the first to discover a real internal Pile remedy. He called his prescription HEM-ROID, and prescribed it for 1000 patients with the marvelous record of success in 960 cases, and then decided every Pile sufferer should be able to get HEM-ROID tablets from their own druggist with a rigid money back guarantee.

Dr. Leonhardt's prescription has a wonderful record of success right in this city and New Castle Drug Co., Eckerd's invites every Pile sufferer to try a bottle of HEM-ROID and guarantee to refund the purchase price if they do not end Piles in any form.

Surface resemblance to Kotex is not enough. Demand the purity of Kotex. Accept nothing less. Your health is involved. You can't afford to risk health for the few pennies you may save by accepting a questionable substitute of whose makers you know nothing.

SPECIAL CONGRESS SESSION?

SEVERAL big systems of newspapers have begun an agitation to have a special session of congress called.

They profess to see a lot of good that could be accomplished by a special session of congress.

We do not believe that President Hoover will summon any special session of congress, neither do we see where it would result in any great good.

With congress almost evenly divided politically in membership, and with the example of recent special session which not only considered the business they were called to take up but expanded to much additional, one can easily predict what would result if a special session were called at this time.

If congress could assemble and take care of what are deemed emergency measures and quit, it might not be so bad, but once congress is called, there appears to be no end of the propositions that can be worked in by one or another method.

Next December is soon enough for congress to assemble, it would seem to us, unless something unforseen develops in the meantime.

SPEEDIER AIR MAIL

Those ancient visionaries who wrote of magic carpets and other forms of supernatural transit were not as improbable as they believed themselves. Were they to be transported back to this world in this day and age they would be skeptical of what passed before their very eyes, imagining themselves suffering from hallucinations, mirages and illusions.

The ancients dreamed of the things the moderns do. The air mail is about to achieve something rivaling the stuff of which the Arabian Nights are made.

Twenty-four hour mail service between New York and Los Angeles will be a fact on and after April 20. Mail dispatched on either coast will be delivered on the other coast in one revolution of the earth. These coast-to-coast planes will carry express on the same fast schedule and within a few weeks will begin carrying passengers across the continent in 24 hours.

Faster air transportation means the capture by aviation of more mail and express business from the railroads and the railway express as well as more passenger business. Will it force the rail carriers more and more into air transportation to meet competition and supplement their own service?

ROOSEVELT AND TAMMANY

Should Governor Roosevelt, of New York, accomplish his apparent purpose to win the Democratic nomination for the presidency next year with the aid of Tammany Hall and be elected president, he will have done something no other Democrat ever did. But can he do it?

Political history shows that the Tammany stamp has never been popular with the Democratic party and the nation's voters. A number of good men have lost the Democratic nomination because they seemed to be under the Tiger's paw, and others, while successful at the party's convention, have lost the presidency for the same reason.

Tilden, a New York Democrat, helped expose Tammany and as a result was nominated for the presidency by his party and the contest was so close an electoral commission had to be created to declare Rutherford B. Hayes elected, a decision still contested by the Democrats.

Grover Cleveland fought Tammany while governor of New York and was thrice nominated and twice elected for the presidency in spite of Tammany Hall.

His antagonism for the Tammany Tiger did not prevent William Jennings Bryan from being nominated repeatedly by his party, and probably had little to do with his succession of defeats in the presidential elections. Bryan was able to swing the 1912 Democratic convention to Woodrow Wilson because Champ Clark, the pre-convention favorite, had Tammany support. And while the notorious Democratic organization in New York City succeeded in nominating Al Smith it failed to make him president by a long ways.

BLOW TO BACK SEAT DRIVERS

Wisconsin's supreme court differs with the trial which found that under certain circumstances failure to back-seat drive can make one culpable. The higher court considers it justified under no circumstances and an abominable practice at all times.

The jury had returned a damage verdict against a driver because passengers in the rear seat of his car saw that a collision was imminent but gave no warning.

Expressing surprise at the lower tribunal's apparent sanction of this verdict, the appellate court held that while the passenger must exercise due care for his own safety the "duty of driving from the back seat has not been imposed upon passengers in automobiles."

Behind this ruling is years of experience. That has shown that back-seat driving has caused more accidents by confusing and startling the driver than it has prevented by warning the driver of approaching danger. The trouble with the back-seat driver is his habit of "driving" at the most inopportune times and failure to "drive" when it would be excusable.

The courts cannot hold a car owner responsible for the negligence of his passengers and, because it would encourage back-seat driving, the courts cannot safely hold the passenger, who tries to drive by proxy, liable for that which he might have prevented.

I Envy This Woman
She Knows What Her Harvest Is
And Writes a Poem

By MARSHALL MASLIN

You want to do something, but you don't know where to begin. You want to do it just right, but you're afraid you aren't big enough for the good task. That's how I feel about this.

I want to write about Mary Bulkley of Carmel, in California. She's been here for 75 years and she spent 64 of them in St. Louis. When she lived there she says she was "in the thick of all sorts of 'causes,' mostly unpopular enough to make them worth while." They kept her on her mettle, no matter what happened to the "causes."

She used to be a bookbinder until the work became too difficult for her. Now she lives in her own "little hut among the bushes," and she does metal work and silver jewelry with semi-precious stones and has a grand time and is "not only able but entirely willing to live quite alone."

* * *

She writes poetry. And for the first time in her life she has had it published. She says, "I am now fatuous enough to believe that now I have something to say." I've been reading her poems and that's why I want to write about them—because it's not often that one who has lived that long can tell so well what the harvest of the years has been. Most of the poems about old age or death that I have read were written by young people — like Bryant's "Thanatopsis" or Burrough's "Serene I Fold My Hands and Wait." But here's a happy woman who sits down at 75 and writes:

Vigor is mine to meet sweet day's task
And love is mine from many a kindly heart
Met since I passed mid-journey Should I ask
For more than strength and love? Soon I will part
From strength—but to the last hour, let me keep
The power to love, though they who taught me so
Are only cherished visions, dim with sleep.
Have I a word to say before I go?

Power is a plague; much helpfulness a curse;
Most hours are wasted; little comes from less;
Knowledge is vain and art is something worse.
Though beauty bides—and beauty is redress.
Let me forget the follies: I have wrought,
I have loved much. Besides this, there is naught.

When we are 75, will we be able to say as much? Will we be as able as Mary Bulkley to gather the corner of our lives together, to knit up its ragged edges, and to see so clearly where we have failed and where we have come through, and what is best and what is trivial in living? Will we be as happy? Will we be as wise?

I wish I could put into words how much I respect, how much I envy, anybody who can do what Mary Bulkley has done. . . But I can't find the words, they've wandered away and I can't call them back. . . . However, there's her poem.

The World AND THE Mud Puddles

AMEN!

What is said to have been the first time a prayer in a state legislature was ever applauded occurred in New York's state assembly in Albany, when the Reverend Kenneth B. Wells, prayed for fewer laws. His prayer also is thought to have set something of a record for brevity. It was as follows:

"Let us prey. Almighty and everlasting God, from whom alone cometh wisdom and power, grant unto us wise laws and fewer of them, and to Thee shall be all the glory and all the praise. Amen."

The applause came at the close of the prayer. And strange to say, the lawmakers themselves did the applauding.

And the whole Nation might well say: "Amen."

Raskob Plea On Liquor Issue Is Productive Of Confusion

Country Balances Attempt To Study Democratic Sentiment On Amendment And Argument That Convention Should Handle Matter

Chairman John J. Raskob's letter to national committeemen of the Democratic party asking for opinions as to the issue of prohibition in the next campaign and outlining his own theory of state control has tended toward confusion, according to press discussion. As the issue is before both parties, a tendency appears in favor of waiting until convention is prepared to act. Some comments uphold the chairman as taking a courageous attitude in the hope of thrashing out differences.

Emphasizing the uncertainty, the WASHINGTON EVENING STAR holds that "too many of the wet Democrats themselves are afraid to go as far as the chairman proposes," and that "the drys will fight such a move to the last gasp." The Star concedes that "both wets and drys who oppose placing the home rule plan in the party platform assert that prohibition cuts across the lines of the Republican and Democratic parties alike, and some of them even go so far as to say that prohibition has no place in politics."

"There can be no objection to what Mr. Raskob is doing," according to the RICHMOND NEWS LEADER, "provided, of course, his conclusions are presented to the platform committee as a recommendation and not as a mandate. From the vigor of the opposition to a practical, sensible method of formulating party opinion, one must suspect that some of Mr. Raskob's critics are more fearful of his findings than of his methods. They begin to suspect that a majority of the national committee are for modification of the 18th amendment."

Referring to the reaction of "various Democratic leaders," the CHATTANOOGA TIMES thinks "their attitude with regard to prohibition is of a kind with that of the ostrich which he thinks to conceal himself by hiding his head." That paper concludes that "prohibition is a political issue in the nation and in the Democratic party, and it cannot be avoided in either." It is declared by The Times that "the attitude of the very men who insist that prohibition is not a political issue is itself proof that it is such an issue."

Mr. Raskob's modification plan impresses the SCRANTON TIMES as the way in which "he believes the will of the people in the various sections would be recognized," while the CINCINNATI TIMES-STAR suggests that 'Raskob is assailed for rushing in where angels and politicians fear to tread," and that "in presuming to say anything between presidential elections except that the other party is all wrong, he has violated a precedent, however quaint the precedent may be." The PROVIDENCE JOURNAL contends that he "offers his fellow committee members a chance to present any issues they have in mind for the general consideration of the committee and out of this pot pourri may come some valuable results."

"By and large," in the opinion of the NASHVILLE TENNESSEAN "Mr Raskob is correct in his stand that the party must stand for something." The PHILADELPHIA PUBLIC LEDGER states that "Mr. Raskob apparently feels that since the Democratic party is hopelessly divided over prohibition, it would be better to face the issue squarely, even at the risk of alienating several states, than to attempt to 'straddle' it."

Committeeman Greathouse of Indiana, who is secretary of the national committee, is quoted by the INDIANAPOLIS STAR as complimenting the "frank and fearless manner of the chairman," but as preferring to "leave the declaration of policies and issues to the Democratic state and national conventions." The Star adds: "The Hoosier leader admires frankness in the abstract and constructive leadership on the part of the national chairman, but personally does not propose to go ahead of the procession until certain in which direction it is going. He could not be more cautious and non-committal if he were running for office."

"The roar about prohibition projectment in the chairman's proposed platform at the national convention," says the CHARLOTTE OBSERVER, "seems to have drowned out some of the 'economic' aims of the chairman and party mentor for he outlined a program that is likely to develop considerable discussion, and it is likely to emphasize criticism of Raskob on the score of telling the party what it must do. * * * Significantly Chairman Raskob incorporates Senator Morrison's idea in one of his 'two ways in which the next election may be won by the Democrats.' One way, he says, 'is through the public voting—not for the Democratic party but against the Republican party as a protest against its conduct of affairs of government. If the Democratic party is interested only in winning one election, it might be argued with a great deal of force that we should avoid or straddle all controversial issues and resort to every expediency to gain votes, not through courageous leadership on our own part, but through promoting dissatisfaction with the Republican party in every conceivable way.' Standing by the principles of the Democratic party and making war on Republican failures of the past and present administrations, is the policy advocated by Morrison When Raskob advocates 'voting against the Republican party as a protest against its conduct of government affairs,' he not only jumps 'nto the Morrison boat, but picks up one of the oars."

Believing that the Raskob position will "eventually attract to his banner thousands of Republican votes and much Republican money," the NEW YORK EVENING POST declares that "these men probably wouldn't cross party lines for Roosevelt, bt a good many thousands of them hereabout would surely do it for Owen D. Young, Ritchie or even Newton Baker."

"Whatever their personal opinions on questions of the hour," advises the ATLANTA JOURNAL, "members of the Democratic national committee could hardly presume to set them up as the party's platform for 1932. That duty and power belong to no lesser body than the national convention itself, chosen by the party's electorate and acting only after full discussion of the issues as they then and there may be presented. The delegates to that convention will have ideas and convictions, as well as responsibilities, of their own, and will be in no wise accountable to the national committee. Any attempt, therefore, of the committee to dictate to them would be, in The Journal's judgment, officious and altogether ill advised."

"It is unprecedented," asserts the CHATTANOOGA NEWS, "and for this scheming prostitution of the chairmanship of the national committee, the monopoly-minded for-

OLD JOHN

He knew the flowers by name, and though a man was he,
Blood-brother to the daffodil and rose he seemed to be.
He'd lived his life among them, and when spring is in the air
There'll be sorrow in the garden for Old John will not be there.

From dawn to dusk he labored through the years among the flowers,
And I'm sure he lived a richer and a happier life than ours,
For his face was calm and placid, and he never seemed to care
For the glory that is business or the crown that skill might wear.

All his waking time was given to forget-me-nots and phlox,
To his peonies and pansies, and his sturdy hollyhocks;
And I've watched him many a summer bending over bloomy beds
Just as tender as a mother stroking little curly heads.

Now the Lord has called him yonder, and the spring is coming on
And the tulips and the jonquils will be asking: "Where is John?"
And I'm wondering what the roses and forget-me-nots will say
When the word is passed among them that "Old John" has gone away.

Beautifully which is done for spite.
Beautifully which must wound another in the doing.
Nobly which is done for a selfish reason.
Nobly which is done with the expectation of a reward in return.
Well which has to be done over again by some one else.
Well which requires an apology afterward.

mer Republican ought to be deposed from the high councils of the Democratic party." The RALEIGH NEWS AND OBSERVER advises that he "should pay up the debts he contracted and get out of the chairmanship." The ABILENE REPORTER is convinced that "his baldfaced attempt to force the delegates to next year's convention to swallow a pre-digested platform and a predigested presidential candidate is doomed to failure." That the matter should be left to the convention is the opinion of the JERSEY CITY JOURNAL and the KANSAS CITY STAR. The NEWARK EVENING NEWS observes that "he gets a rather chilly response." The WORCESTER TELEGRAM finds that "his position lacks genuine clarity." The CHARLESTON (W. VA.) The HARRISBURG TELEGRAPH concludes that he "would like to compromise on a question on which there is no compromise."

"His letter is well designed to worry the life out of politicians too numerous to mention," avers the BALTIMORE EVENING SUN, with the conclusion that "speaking generally, any proposition that worries the politicians is likely to be good for the country." The CHICAGO DAILY NEWS states that "the outcries of Senator Norris may serve a good purpose, for it is true that a national campaign fought out solely on the prohibition issue would be a ludicrously narrow affair." The OMAHA WORLD-HERALD argues: "It looks just a little as if Mr. Raskob would like to eliminate as many differences as possible between the two parties. If there is to be any hunting done at all in the economic jungle, let the Republicans do it with sling shots and the Democrats with pop guns. But for the real and bloody battle, let both parties unite in a glorious nation-wide squirrel hunt, with the Democrats bent upon killing the squirrel and the Republicans upon saving it. This has all the appearance of burlesque. It seems like an ill-timed joke. But there is no joke about it. Mr. Raskob is in deadly earnest. And, because he is their chairman and wields great power, Democrats may as well understand now as later that unless they take an unyielding stand for sanity Mr. Raskob is likely to have his way."

Commenting on Mr. McAdoo's defense of prohibition, the ROANOKE TIMES says: "McAdoo's own political day is past. His opposition to Raskob's plan to commit the Democratic party irretrievably to the wet side of the prohibition question a year in advance of the next presidential campaign is well founded, however, and is in line with the expressed idea of an impressive number of influential party leaders who believe that economic issues should be paramount in the 1932 contest for the presidency."

The MORGANTOWN DOMINION-NEWS contends that "neither Mr. McAdoo nor anyone else can say authoritatively that the 18th amendment is here to stay"; that "the majority of American citizens persist in regarding prohibition as a paramount issue"; and that "we have never heard of a rule that compels the party chairman to keep his lips tight closed on matters of grave national concern."

Dempsey Is Just Bluffing Asserts Estelle's Mother

Mrs. Bertha Boylan, Mother Of Screen Star Says Husband-Jack Only Fooling

(International News Service)

CHICAGO, April 16—Jack Dempsey, former heavyweight champion, is just bluffing when he says he is at the point of getting a divorce.

That was the opinion of Mrs. Bertha Boylan and Mrs. Ida Barrett, mother, and grandmother of Estelle Taylor, Dempsey's wife.

They were enroute today to Wilmington, Del., having arrived here yesterday from Hollywood.

"Jack's action is just a gesture or a bluff," the women said. "They really are very much in love. If true friends got them in a room for five minutes all their troubles would be patched up."

Remove carefully the Humidor Pack from a package of Camels and fill it with water. If you have not injured the seal at the corner you will note that it holds the water perfectly without leaking.

Now make the same test with the ordinary Cellophane or glassine wrapping found on other brands. See how quickly the water seeps through and escapes.

Cigarettes in prime condition have a moisture content of about 10%. It will be seen by the Chart that cigarettes in the ordinary wrapped package lose more than half of their total moisture in thirty days and that only the Camel Humidor Pack delivers cigarettes to you in prime condition

All is not *moisture-proof* *Cellophane* that glitters

DO NOT be misled by a mere shiny wrapper. The Camel Humidor Pack should never be confused with either the glassine or the ordinary Cellophane wrapping sometimes found on other cigarettes.

Our Humidor Pack is made of moisture-proof Cellophane, which costs nearly twice as much as ordinary Cellophane and is air-sealed at every point.

It is not put there merely to catch the eye but to perform a real service to the Camel smoker.

Because it is both air-sealed and moisture-proof, it keeps Camels always in mild, factory prime condition. It also guards the cigarettes within from contamination by dust or dangerous germs.

As you light a Camel fresh from the Humidor Pack, note how mild and cool and easy it is to your throat. Compare its fragrant mildness with the bite and burn that comes from the smoke of a stale or dried out cigarette.

Everywhere today people are talking about the new delight they have found in this blend of choicest Turkish and mellowest Domestic tobaccos.

Remember, Camels are the only cigarettes in the true Humidor Pack.

Switch to Camels for just one day, then quit them tomorrow if you can.

NEW YORK, April 16.—Here's a new one from the Rammer Jammer: "No," said the motorist to the traffic judge, "I was not going 40 miles an hour. I was not going 30 miles an hour, nor even 20 miles an hour——"

And here Hizzoner interrupted: "Steady—or you'll be backing into something directly!"

LIGHT ON U. S. HISTORY

The correspondence of Stephen A. Douglas with the national leaders of the Civil war period, which has not been opened since the day "The Little Giant" himself tied it up, shortly before his death, has been turned over by the Douglas heirs to George Fort Milton.

Mr. Milton writes Coward McCann, who published his Andrew Johnson biography, "The Age of Hate", that he has rented an office at Greensboro, N. C., and is going through the papers as part of his research on the Douglas biography he is writing.

"These letters," he says, "are the greatest historical find we have had for 30 years."

CHURCH AND COURT

In this joyous spring season, with hundreds of couples walking arm in arm up the center aisle, hopeful of the future, a newspaper editor in Manhattan suddenly recalled that one out of every six married couples in The Capital of The Commonplace, sooner or later, seek a divorce.

That, in itself, is a sweet vernal thought.

Anyway, Ye Ed asked old Rupert Hughes, the writin' feller, if he'd take a pot-shot at explaining the phenomenon of the "ont out o' six", and here's what Rupe says:

"Any man who has been on a bathing beach knows that there is nothing mysterious about a woman. The blushing bride is a pre-war anachrosium. Since glamour has passed out of modern love, the excitement of the wedding ceremony fades with the sunset and antagonistic instincts start jangling before the wedding presents are unpacked."

Rupe may be right. I dunno. But I do know this: Every guy judges all women by the one woman he knows best.

PARADOXICAL BLISS

Speaking of love, marriage and other wonders of nature recalls the fact that a book entitled "Married Love" by Doc Marine C. Stopes, is no longer under the federal ban.

G. P. Putnam & Sons hired Morris L. Ernst, New York's leading Blackstone sharp on that sort of thing, and Morris convinced Judge Woolsey that the book wasn't "nawsty". Hizzoner read it and quite agreed. In fact, he said, he found it "rather informative."

And then these words emanated from The Bench: "I cannot imagine the kind of normal mind to which this book would react in a manner obscene or immoral.

"Marriage is a status of antagonistic cooperation. This book has, as its whole thesis, the strengthening of the centripetal forces in marriage."

The entire case would have been worth that one definition of marriage: "A status of antagonistic cooperation."

What would Rupert Hughes give to have thought out one like that!

HORRIBLE THOUGHT

So long as we're on the subject let's stick.

Did you hear what Doc Lorine Pruette, just back from a trans-continental lecture tour, has been saying about Mere Man?

Oh, Boy!

Lorine is a member of the Association of Consulting Psychologists and formerly on the Smith college faculty.

"Man," she chirps, "for all his vaunted importance, has become relatively unnecessary. He still enters into the scheme of things as a papa, but science may soon beat him out of even that excuse for hanging about!"

That's what I've been saying right along. Something's got to be done—an' darn quick—to stop the "advance of science. If not, well—read over again what Lorine says.

If You're Losing Health Here's Good Advice

One man we know had lost a lot of weight. He felt all run down and out of sorts. His precious health was slipping away from him. So his doctor told him he'd have to take cod liver oil. But the poor fellow couldn't take cod liver oil. The nasty taste was just too much for him.

Then one night he discovered a little article in his evening paper It told him that McCoy's Cod Liver Oil Tablets give all the benefits of the finest liquid cod liver oil. All the vitamins, all the healthful benefits are put into this tiny tasteless tablet form. He read that Good Housekeeping Institute had tested these tablets and given them its seal of approval.

This pale and sickly man got a box of McCoy's. And what a change it made in him! He's got a new grip on life now. His health is normal. He's full of pep and vigor. What McCoy's have done for him they'll do for you. So get your box today. 60 tablets—60 cents.

Montana Woman Lost 17 Pounds Weight In 4 Weeks

Here's a letter written October 21, 1929, by Mrs. Fred Barringer of Lewistown, Montana, that ought to be read by every overweight woman in America.

When stout women can lose fat and at the same time gain in energy and vigor.

Gain in charm and vivaciousness.

Gain a healthy complexion and have eyes that sparkle with buoyant health.

And at insignificant cost—isn't it time to use common sense?

Please read this letter carefully:

"Gentlemen: I started taking Kruschen every morning as directed as I was very much overweight and wanted to reduce.

I had tried going on a diet but would get so hungry that my diet would not last long, so I decided to give "Kruschen Salts" a fair trial. The day I started to take them I weighed 256 lbs. and at present, which has been just four weeks, I weig. 239 lbs. And I must say, I feel better in every way, besides looking much better.

May all large people, both men and women, who want to reduce in an easy way, give Kruschen Salts a fair trial. Just try one bottle and by following directions, I am sure it will convince any one. I bought my second bottle today."

A bottle of Kruschen Salts that lasts four weeks costs but 85c at any drugstore in America.

Why not try one bottle—if not joyfully satisfied—money back. When taking Kruschen you can reduce more swiftly by cutting out pastry and fatty meat—go light on potatoes, butter, cream and sugar—it's the safe way to reduce. New Castle Drug, Eckerds, and McKee's Kut Rate knows all about Kruschen.

THE PARENT PROBLEM

Partiality Most Hated By Students

Adolescents Sensitive To Fairness And Justice

By GARRY C. MYERS, PH. D.
Head Division Parental Educatioin, Cleveland College, Western Reserve University.

A little while ago I spoke before the teachers of the public schools of Barberton, O., on "Building Personality in Pupils." At the close of the talk the school superintendent, my old friend U. L. Light, handed me a reprint of his research entitled, "High School Pupils Rate Teacher," which appeared in the School Review, January, 1930.

The rating sheet, or blanks, which the pupils filled out, read as follows:

"Below are some questions about your teachers which you are asked to answer frankly and honestly. These questions apply only to those teachers in whose classes you have taken work.

"1. Rank the teachers whose classes you have attended, putting the one you consider best first; the poorest last.

2. What qualities, in your judgment, should a good teacher possess?

"3. What qualities, in your judgment, make a teacher poor?"

The pupil did not sign his name.

* * *

Good disposition, kindness, patience, cheerfulness, controls temper, were given highest rating by the pupils. Next in order were: Impartiality, ability to explain clearly, discipline, knowledg of subject, fair in marking, sense of humor, helps pupils out of class, understands high school boys and girls, knows how to interest pupils, honest in all her dealings.

The first six traits were named about three times as often as "knowledge of subject."

These data show, as I pointed out in an earlier column, that pupils are most concerned about the human qualities of the teacher, those qualities least emphasized by schools of educatiion, text-books, and school officials.

Of qualities of teachers which make them poor, the pupils named foremost in order the following: Partiality, unpleasant disposition, quick temper, lack of discipline, poor explanation, lack of knowledge, lack of humor, indefinite assignments, talks too much, nags pupils. Notice that **partiality** is named first, whereas **impartiality** also ranked near the top of the other list. Adolescents are exceedingly sensitive in regard to fairness and justice. Emotional control and those human qualities which relate to personal attractiveness also excel.

* * *

Here are some sample statements by pupils:

"Poor teacher—A swell head, bulldog bark, bum pronunciation of words, overbearing manner, marks low out of mere spite, marks on conduct and agreement with his views on debatable subjects.

"A good teacher should posses personality; he should be a good example for the pupils; he should know what he is talking about and be able to explain the necessary points satisfactorily. He should endure some whispering or talking, for we are human, not machines."

Similar published studies extended to elementary school children have revealed the same general facts. They ought to do some good.

The author notes: "The teachers were told that if they were interested in looking over the results of the pupils' rating, they could do so. Several with the lowest ratings accepted the verdict and began to look for positions elsewhere."

Answer to Previous Puzzle

5 YEARS AGO . . .
a 29x4.40 tire cost $20.30
Then Along Came
ALLSTATE

Now you can buy a 29x4.40 balloon for
$4.98 EACH
(Or a Pair for $9.60)

WHAT a revolution there has been in tires since ALLSTATE came on the road. In five years it has come from an unknown to a leader.

Two things explain it—superlative quality, and the most economical method of distribution yet devised.

No matter how low priced, ALLSTATE could not have succeeded without being good—so we deliberately made it the best tire. We called in the country's foremost engineers and designers and had them tear apart every worthwhile tire on the market. We learned the strengths and the weaknesses of all, and incorporated the best of everything in ALLSTATE.

Then we took the design to the world's most successful tire manufacturer and had him make ALLSTATE especially for us with the same manufacturing skill employed for his own tires. Against such precautions as these a better tire cannot be built.

This quality is brought to you at a price that five years ago was deemed impossible. ALLSTATE is sold directly through our own system of mail order houses and retail stores—saving jobbers' expenses and profits, reducing handling to a minimum, eliminating all selling costs but our own modest one, and entailing only one profit besides the manufacturer's.

Naturally, ALLSTATE introduced a new standard of value to the tire field. It has set the pace in price reductions.

Just Read These ALLSTATE Prices:

SIZE	Each Tire	Per Pair	Each Tube
28x4.75	$6.65	$12.90	$1.23
29x4.50	5.60	10.90	1.08
29x4.75	6.75	13.10	1.28
29x5.00	6.98	13.60	1.30
29x5.25	8.15	15.80	1.50
30x4.50	5.69	11.10	1.08
30x5.00	7.10	13.80	1.35

Classic Statement

What were the circumstances of the remark, "Millions for defense but not one cent for tribute?"

This remark is credited to Charles C. Pinckney at the time of the XYZ affair (1796-1800). The French Directory refused to recognize Pinckney and the two other United States commissioners to France. Talleyrand's emissary assured the commission that a gift of money would be necessary before negotiations could be conducted and that a refusal might bring on war. Pinckney is said to have replied: "War be it then: millions for defense sir, but not one cent for tribute." President John Adams referred to the men involved as "Mr. X, Mr. Y and Mr. Z." The affair was straightened out by a new commission in 1800.

Is Captain Alfred Dreyfus of the famous Dreyfus affair still alive?

Many Schools Of County Close Soon

Those Having Eight Month Terms Will Be Out On 24th Of Present Month

Preparations are being made to close many of the schools of the county this month, according to County Superintendent J. C. Syling. Some of those having eight months terms in Washington, Slippery Rock, Wilmington and other townships will close on April 24th. In a few instances, where time has been lost, closing will be a day or two later.

Some of the schools are arranging to have literary exercises to which patrons will be invited on the closing days. High schools of the county where nine month terms have prevailed will not close until the latter part of May or the first week in June.

Superintendent Syling reports a very successful school year. Pupils as a rule have been healthy, and there has been no epidemics to close schools. No failures among teachers have marked the past year.

Non-Suit Granted In J. A. Fee Case

Defense Claims Contributory Negligence At Conclusion Of Plaintiff's Testimony

After testimony had been taken before Judge Hildebrand yesterday on the side of the plaintiff in the case of James A. Fee against the Baltimore and Ohio Railroad Company, the defense made a motion for a compulsory non-suit on the grounds of contributory negligence on the part of Fee. After some argument the motion was granted and the case dismissed.

The case was one in which Fee's automobile was struck by a Baltimore and Ohio train at the Gardner Avenue crossing. Fee claimed that his vision of the railroad tracks had been obscured by a shanty along the tracks and that he did not hear any bell or whistle.

An engine was backing two cars over the crossing at the time of the accident.

Mothers-Daughters At Banquet Event

South American Missionary Speaks At Ellwood Banquet Last Night

ELLWOOD CITY, April 16.—The Women's Missionary Society held their mothers and daughters banquet 6:15 last night. All assembled in the auditorium of the Trinity Lutheran Church from where they marched to the dining room while the Sunday School orchestra was playing. The assemblage sang, "Blessed be the Tie That Binds" which was followed by the invocation by Mrs. H. F. Fleischer and daughter Helen. There were 153 guests seated on the occasion.

Mrs. George Garmon was toastmistress at this time and greeted the guests. While the orchestra was playing the guests partook of the banquet. Pep singing in charge of Helen Garmon then took place. A piano duet by Mrs. George Atkinson and Miss Audriene Schiedmantle was the next number on the program. The latter gave the toast to the mother to which Mrs. P. W. Blocher responded. This was followed by a solo by Miss Mary Blocher.

The principal event on this occasion was the introduction of Miss Corinne Menges, a missionary home on furlough from South America, who paid flowing tribute to the assemblage in a few well chosen words. Her personality and manner immediately captivated her audience.

A reading by Mrs. James Goodwill and songs by the audience closed this part of the program which was the most delightful banquet ever held in the church. The dining room had been strikingly decorated.

The vesper services began at 8:00 o'clock at which time Rev. C. W. White director of the Orphan's Home of Zelienople. Mary Blocher and Robert Taylor rendered a duet after which Rev. White introduced the speaker.

Miss Menges told of her work in the mission schools of Buenos Aires, of the climate, government, customs, and educational possibilities of the country. Great progress has been made there. The speaker exhibited two dolls dressed by one of her classes in South American costumes. An anthem by the choir closed the events of the evening at which time Miss Menges received the thanks of the assemblage.

Those responsible for the success of the banquet are Mrs. John Strohecker, Mrs. Arthur Dambach, Mrs. Andrew Zekeli, Mrs. John Duffy, Mrs. H. F. Fleischer, Margaret Blank, Helen Garmon, Gladys Blank, Mrs. C. B. Ross, Mrs. Henry Eicholtz, Mrs. Clarence Wallace, Mrs. Jean Grubb, Mrs. Fred Melzer. The banquet was served by the Brotherhood Bible Class of the church.

Tureen Dinner Will Supplant Banquet Early In May

POST ENTERS MAN FOR TRIP TO PARIS

Plans were inaugurated for the annual Mothers' Day banquet of the Harry L. McBride Post, Veterans of Foreign Wars, at their meeting in the post rooms in the Legion Home Association Building last evening.

In place of the customary banquet, however, the affair will be a tureen dinner, to be followed by a program of entertainment. The kitchen committee will have charge of serving the dinner and the entertainment committee will be in charge of the program. Joseph DeRobbio was added to the entertainment committee.

Plans for the nationwide membership contest which starts April 15 and closes July 31, were announced, the capital prize for which is a trip to Paris. The post voted to enter Carl Staeber in the contest and all new memberships received between now and July 31, will be credited to him.

The post hopes to surpass their membership of 205 of last year in this contest and complete plans for the membership drive will be outlined at once by Chairman Staeber.

Invitations were received from two surrounding posts to functions which will be held in the near future.

On Saturday evening, April 25, a big meeting of V. F. W. men from the Northwestern counties district will be held in Franklin, when a big program has been planned.

On Wednesday evening, April 29, Beaver Valley Post No. 48 of New Brighton is planning an open house celebration to which the members of the post have been invited. It is planned to send a big delegation from the post to both gatherings.

Reports on the Commander-in-Chief's banquet were made by the chairman, showing that the affair was a most successful one, despite the small attendance.

Gar Wood Fails To Break Record

Gar Wood Hurtles Miss America IX Over River At 102.44 Miles An Hour

(International News Service)

MIAMI BEACH, Fla., April 16.—Gar Wood hurtled his Miss America IX over the waters of Indian Creek here today at a speed of 102.44 miles an hour, a mile an hour short of the world's speed-boat record held by Kaye Don, British racer.

Wood announced he would try again to break the record of 103.49 miles an hour after making minor adjustments of the powerful engines of the Miss America IX.

On his southbound run over the measured nautical mile, Wood attained a speed of 102.53, negotiating the mile in 40.43 seconds. This was faster than his run here several weeks ago, but .96 miles an hour slower than Kaye Don's mark.

He waited a few minutes and then sped northward at a speed of 102.33 miles hour.

The big hydroplane was under perfect control, but Wood said it was necessary to use considerable rudder to counteract a cross wind of eight miles an hour that was sweeping across the course.

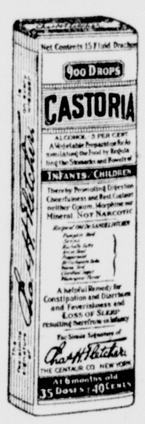
FOR ANY CHILD



CHILDREN are happy and carefree by nature, so when they cry for no apparent reason any careful mother worries. No one can always guess just what is wrong but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation and not the slightest harm in its frequent use. As often as baby has a fretful spell, is feverish and cross and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes it is constipation. Just keep Castoria handy and give freely for any of the above conditions; relief will follow promptly.

All through babyhood, Castoria is a mother's standby, and wise mothers do not change to stronger medicines as the child grows older. Just increase the dose of Castoria and keep the youngster's stomach sweet and the bowels in good order.

To be sure of getting genuine Fletcher's Castoria you should look for this signature: Chas. H. Fletcher

"I'M going, anyway"

THE modern Miss needs no "time out" for the time of month.

If you've ever taken Bayer Aspirin for a headache, you know how soon the pain subsides. It is just as effective in the relief of those pains peculiar to women!

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always enable you to carry on in comfort. Take enough to assure your complete comfort. If it is genuine aspirin it cannot possibly hurt you. Bayer Aspirin does not depress the heart. It does not upset the stomach. It does nothing but stop the pain.

Headaches come at inconvenient times. So do colds. But a little Bayer Aspirin will always save the day. A throat so sore you can hardly swallow is made comfortable with one good gargle made from these tablets. Neuralgia. Neuritis. Rheumatism. Pains that once kept people home are forgotten half an hour after taking a few of these remarkable tablets. So are the little nagging aches that bring fatigue and "nerves" by day, or a sleepless night.

Genuine Bayer Aspirin tablets cost so very little after all, that it doesn't pay to experiment with imitations!

First Report Of House Committee Ready For Public

Preliminary Report Of House Utility Committee Is Made Ready

SUMMONS SENT COMMISSIONERS

Chairman W. D. B. Ainey, Will Be Called Before Probers

By ROBERT F. GORMAN
International News Service Staff Correspondent

HARRISBURG, April 16.—Preliminary report of the House Utilities Investigating committee, a 4000-word draft of its findings to date in the probe of the utility situation, will be made public here today.

Decision to issue the preliminary report was reached at an executive session last evening. The report will be given to the legislature as a basis for legislation designed to correct undesirable situations disclosed by the committee's activities.

Summon Commissioners

The probers at their executive session also requested W. D. B. Ainey, chairman of the Public Service Commission, and commissioners Benn, Brown and Young to be ready for appearance today, then postponed their appearance until next week. When Ainey comes before the committee it will be his first appearance in the probe of the commission.

Promise of a hearing of representatives of utility companies was made by Rep. D. Glenn Moore, Washington, chairman of the committee. It is not expected utility counsel will appear for about two weeks, however.

The committee also received from Ira J. Williams, counsel for Commissioner Benn, a statement denying inferences made by W. A. Gray, governor's counsel for the committee, that Benn had received money and dealt in Philadelphia Electric company stock.

Branding the charges, and Gray's suggestion the committee summon Benn to discuss such matters, "false and libelous," Williams issued a formal statement by Benn in which the latter categorically denied having delt in utility securities, or transacted private business through his own or any other office with utility representatives.

Delve Into Costs

At its late session, the committee delved into cost of constructing rural electric lines and figures were produced showing such costs varied from $800 to $3750 per mile, from 1927 to 1929. The low figure was set by the Shippensburg Gas and Electric company while the high one was the cost to the Mauch Chunk Heat, Power and Electric company.

O. M. Rau, Pinchot investigator who produced the figures, also told the committee all rural electric costs were too high.

Groundwork of a prolonged session was laid during the night when the committee received a detailed analysis of the capital structure and financing of the Federal Water Service company, holding organization of the Scranton, Springbrook Water company. Inquiry into the organization of the latter firm was forecast for the next two days.

Prosecutor Wins Youngstown Tilt

Prosecutor Ray Thomas Wins In Taking Of Probe To State Court

(International News Service)

YOUNGSTOWN, O., April 16.—Defeated in their first encounter with Ray Thomas, Mahoning county prosecutor, before the state supreme court, the five common pleas court judges today proceeded with their plans to reopen their abruptly halted grand jury investigation of the relations between public utilities and public officials.

Thomas' temporary injunction, restraining the judicial probe by a special grand jury, was upheld in an opinion of the state's highest court.

Their investigation of the utilities prevented, the jurists announced they would turn their searchlight on the office of Thomas himself as the starting point. Chief Justice Carrington T. Marshall of the state supreme bench will be asked to send a disinterested judge here to conduct the probe.

Daylight Time Is Proclaimed

Pittsburgh Clocks Will Move Up On April 26, Mayor Announces

PITTSBURGH, April 16.—In a proclamation issued late yesterday Mayor Charles H. Kline calls attention to the fact that, following the custom of the past 13 years, daylight saving time will be ushered in Sunday, April 26. At the same time it was announced from the mayor's office that a letter had been received from James Francis Burke, general counsel of the Pittsburgh Clearing House association, stating that the organization had adopted a resolution in favor of daylight saving for the coming year.

The mayor's proclamation follows:

"As a result of 13 years' continuous expereince the people of Pittsburgh have established the custom of observing daylight saving in the activities of this community.

"The custom is dictated partly by the necessity of adjusting the interchange of business between this and other large cities and partly to give opportunity to all classes of people for evening recreation. The wisdom of the practice having thus been demonstrated, it is apparent that it should be continued and I therefore recommend that all persons adapt themselves, their business and their affairs thereto for the same period as heretofore, namely, from Sunday April 26, 1931, to Sunday, September 27, 1931.

"The office hours and the daily employment of city officers and employes will conform thereto."

The mayor's proclamation will be an answer to many inquiries which have come to city hall during the past two weeks as to whether the city was to follow the custom of the past years, and as to when the time change would become operative.

College For Women Marks Steady Growth

(International News Service)

NEW LONDON, Conn., April 16.—In a scant twenty years, Connecticut College for Women here has grown from a group of 123 girls who started their work in April, 1911, to four classes totaling 559 students assembled from nearly every state.

The city of New London gave the site and $50,000 when trustees voted to put their college here. Later the city furnished $100,000 for endowment purposes.

Morton F. Plant, traction magnate, gave $25,000 when the college was proposed and when he saw it actually in being he handed over a fund of $1,000,00, and later still built two large dormitories.

David H. Fanning of Worcester, Mass., also built a dormitory for the college and four Connecticut families also provided buildings.

Workers Uncover Fossil Clay Bed

(International News Service)

COLORADO SPRINGS Colo. April 16.—A project that was started to relieve the local unemplayment situation has attracted the attention of the scientific world.

Early in the winter funds were raised by private subscription to pay otherwise unemployed men for lowering Pike's Peak avenue hill in the residential section of Colorado Springs.

In their excavations the workmen came upon what are believed to be valuable fossil remains. A vein of these fossils was found in the clay.

The latest discovery is said to be a rattlesnake's tail. It is so big around that the reptile is believed to have been 100 feet in length.

Colorado college has obtained some of the specimens. Others are being shipped to Washington, D. C., for examination.

That strike of "diet stenographers" in Tokio was not, however, a hunger strike.—The Ann Arbor Daily News.

INCREASE SHOWN IN PAY ROLLS

(International News Service)

WASHINGTON, April 16.—An indication of a revival of business conditions was revealed in figures announced today by Secretary of Labor Doak, showing that employees in manufacturing industries numbered 152,000 more in March than during January, while the aggregate weekly payroll of the workers was increased by $13,500,000.

The figures were based on reports from more than 13,000 manufacturing establishments.

The increase in the aggregate weekly payroll was proportionately greater than the increase in the number of employes, meaning a greater percentage of full time workers. The persons employed earned $1.55 more per week than the smaller number of persons working in January.

In the two months interval employment in manufacturing industries increased 2.3 per cent; the average payroll increased 10 per cent, and the per capita earnings increased 7.5 per cent.

Former Beauty To Start Serving Her Sentence In Jail

Miss Irene Knight, Buffalo, Beauty Winner, Sentenced As Bootlegger

(International News Service)

TOWANDA, Pa., April 16—Paths which led Irene Knight to fame in a nation-wide beauty pageant will end this evening in the Bradford county jail, where the attractive brunette who was "Miss Buffalo" in the 1925 Atlantic City beauty contest will begin serving an 18 month sentence of bootlegging.

The former beauty was sentenced April 6 after she pleaded guilty to a charge of violating the prohibition laws.

Judge Charles M. Culver deferred sentence to permit Miss Knight to arrange her affairs before entering the jail at noon today, county officials reported, the former beauty had not appeared to begin her sentence but they were confident she would arrive at the jail this evening. Miss Knight was said to be in Towanda, making last minute arrangements of personal affairs. She has, authorities pointed out, until midnight to start her sentence.

Conviction of the former beauty prize winner followed her arrest near here December 16 last, by state police who testified they found a $2,000 cargo of liquor in a specially constructed motor car.

State Religion In Spain Is Changed By New Government

Republicans Renounce Catholic Faith As State Religion For Spain

(International News Service)

LONDON, April 16.—The provisional Republican government of Spain today renounced the Roman Catholic faith as the state religion, a distinction it has enjoyed since the signing of a concordat in 1851, according to the Madrid correspondent of the London Evening Standard.

The new minister of justice, the correspondent declared, called upon the Papal Nuncio residing in Madrid and informed him the government was establishing freedom of conscience and equality of rights for all religions in Spain.

As a result of this step, it was pointed out, the Catholic Church will be forced to lose the privileged position it has so long held as an integral part of the state.

Spain has been preponderantly Catholic for centuries, but the close relations between church and state were not actually defined until the concordat of 1851.

Dice Never Shaken Lawsuit Followed

(International News Service)

SAN MATEO, Cal., April 16.—Although the "bones were never rolled," Miss Iris McPherson is in possession of a $2,700 diamond ring which she was supposed to have gambled on.

When the will of Thomas A. Kelley was filed for probate it was revealed that Miss McPherson and Miss Hazel Stirling were to shake dice for the ring.

They never did. Miss Stirling died two years ago, leaving a will in which she bequeathed her "half interest" to her mother, Mrs. Elizabeth A. Stirling.

A legal battle then took place between Miss McPherson and Mrs. Stirling for possession of the ring. In a superior court the ring was awarded to Miss McPherson. An appeal was taken by Mrs. Stirling but the state district court of appeals decided in favor of Miss McPherson again.

The district court opinion stated that as it had evidently been the intention of Kelly that one girl or the other should have the ring, Miss McPherson should receive it.

Judge Quotes Virgil In Suit Over Pig

SOUTH NORWALK, Conn. April 16.—Judge Nehemiah Candee quoted Virgil's Aneid in an eight-page decision settling a suit over the shooting of a dog that had bitten a pig.

John Horvath sued Jos. Varanai, claiming he had killed the dog unlawfully. Judge Candee, in disposing of the suit, said "it is unfortunate that in the instant case, that there was not some Sibyl present with a suitable medicated cake to put the defendant's valuable dog to sleep before he brought disaster and ruin upon the plaintiff's pig. Now that both animals have passed on to their respective rewards, the court is inclined to let the value of one offset the value of the other."

Hearing that her husband intended to file suit for divorce at Reno, Miss Taylor countered by announcing that she would file a divorce complaint here. She has told her attorney to notify her husband of the contemplated action, declaring she wished to get the divorce with as little sensationalism as possible.

All Day Meeting Attracts Crowd

Old Fashioned Gospel Meeting Is Held All Day Wednesday In Gospel Tabernacle

A religious meeting of real old-fashioned nature was held Wednesday all day in the Alliance Gospel Tabernacle, Pearson street, with those attending bringing baskets of good things to eat and enjoying the luncheon and dinner in a spirit of good fellowship.

The afternoon service was in charge of Rev. M. J. Scripture, pastor of the Hoover Heights Tabernacle, who spoke on "Divine Healing". The message was a most powerful one and was followed by an annointing service, when 80 persons surrounded the altar.

After the following hour, which was held in connection with the dinner, Rev. T. J. Keegan of Moravia Stop led the song service and Rev. S. W. McGarvey of Williamsport, district superintendent, brought the message on "The Holy Spirit".

Damage Suit Is Now In Progress

The case of Elmer J. Suber and Ida M. Suber against William Wignall in which damages are claimed by plaintiffs for injuries sustained by Mrs. Suber while undergoing treatment at the Wignall sanitarium on Maryland avenue, was taken up for trial before Judge James A. Chambers at court this morning.

Wignall has a reputation for being able to relieve or cure certain ailments growing out of stiffness of joints, rheumatism, misplacement of bones and other afflictions. Mrs. Suber, who was troubled with a stiffness in her right arm, went to him for treatment. She alleges that during the treatment her arm was violently wrenched, and that in place of getting better she got worse, afterwards undergoing treatment at the hands of physicians.

Wignall claims that the treatment given was such as he had found to be effective in such cases and was administered in an effort to afford relief.

Troop 15 Parents Share Boys' Fun

First Christian Troop Holds Successful "Parents' Night" Program

"Parents' Night" featured this week's program of the Boy Scouts of Troop 15 of the First Christian church, held in the basement of the church in the place of the troop's customary weekly meeting. A capacity crowd attended the tureen dinner and program which followed.

Between 6:30 and 7:30 o'clock the delicious dinner was served, with a pep song and instrumental music period following after.

The Rev. G. S. Bennett, pastor of the church and chairman of the troop committee, opened the program with an excellent address on the twelfth scout law, "Reverence."

To show the parents the methods used in conducting a scout meeting, the scouts of the troop contributed some feature activities to the program. An impressive color ceremony opened the program with Scoutmaster Sidney Smith and Assistant Ralph Montgomery in charge. Dues were collected and good turns given, special emphasis being made of the different kind deeds of the boys.

Patrols Perform

Patrol stunts by each patrol were put on as the next feature. The silver fox patrol, led by Herman Kitchen, demonstrated their knowledge of semiphore signalling and pyramid building. The pine tree patrol used a historic scene in the development of the United States flag as their stunt. Fulton Cook is leader of this patrol.

The Owl patrol led by Arthur McEwen demonstrated the steps necessary for a boy to become a scout.

Two first aid teams which represented the troop in the Lawrence County First Aid meet on April 9 then demonstrated first aid problems. Team No. 1 by Robert Ray, with Haskell Kitchen, Herman Kitchen, Russell Book and Roy Baynham gave a splendid exhibition. Afterward, the team presented its coach, Carl Clapie, with an appropriate gift.

The second team, led by Arthur McEwen with Elliott Francis, Gerald Book, Edward McKee and Robt. Keck, also performed for the parents. This team followed the first team and presented its coach, Leo Hill, with a gift.

After the first aid teams had finished semaphore signaling demonstrations were given by Ralph Montgomery and Robert Ray. Edward McKee and Fulton Cook also demonstrated their knot tying skill in a fascinating exhibition.

Taking part in the closing Indian ceremony, in which boys were initiated, were Raymond Bennett, Haskell Kitchen, Art McEwen, Bill Pherson and Paul Mackey.

Assisting the troop in the evening program were a group of the mothers who aided in different ways. They were Mrs. J. F. Book, Mrs. J. Baynham, Mrs. G. S. Bennett, Mrs. J. C. Pherson, Mrs. Ray Zeigler and Mrs. Margaret Smith.

Americans Of Spanish Descent Relate Ideas Regarding New Regime

Alfonso, Well Liked Man, Made Mistake By Playing Politics

Hail Abdication Of King As Dawn Of New Era In Spanish History

By LOUIS MILLER
International News Service Staff Correspondent

PITTSBURGH, April 16.—"King Alfonso—or rather, ex-King Alfonso—is a mighty fine man, but we're glad to see him go.

"No Spanish citizen personally dislikes the deposed King, but the Spaniard's desire for a government by the people is stronger than his affection for the most gracious of monarchs."

In this fashion numerous Americans of prominent Spanish birth today expressed their reactions to International News Service regarding the abrupt finis written to the 45-year reign of King Alfonso, last of the Bourbons. With news dispatches narrating first acts of the provisional government coming from their native country, these Spanish-Americans signified complete approbation of what transpired.

Dawn of New Era

They hail the advent of the new regime and believe it should mark the dawn of a new era in Spanish history.

They have known both the life in a monarchy and life in the United States democracy and they termed the thrill of freedom as "exhilarating" to the "old folks" on the Siberian Peninsula.

Several became retrospective when interviewed. Although they were practically unanimous in their approval of the monarchy's downfall, many pointed out that Alfonso might still be king had he not "stepped out of bounds" as laid down in the Spanish constitution.

"Alfonso was an inefficient business man," was the phrasing of one Spanish-American, "or he would not now be fleeing his country.

"A king—a constitutional king such as Alfonso—has a position to fill similar to that of an executive in a large and 'going' concern. He's paid his salary; he must be a 'moderator' between political parties, and his power is granted him by consent of the people.

Made Big Mistake

"The old days which saw a king enthroned by divine right passed from Spain years ago. Alfonso, born a king, sought to mingle in the political affairs of the country considerably beyond his authority. Had he remained aloof from the hot strife of politics, as does the King of England, he would be on the throne today.

"For the people liked Alfonso—and still do. His personality was lovable as well as kingly."

Considerable doubt was expressed in Spanish quarters here as to the fate of the present government headed by Aniceto Alcala Zamora. One Spaniard, in intimate contact with the affairs transpiring in his native land, foresaw anything but a bed of roses for the new regime.

"It will not be clear sailing for the new rulers," he said. "They will have to contend with antagonism in Catalonia, always a troublous spot for Spain. That section of the country, where difficulties are further enhanced by the use of a different language, may attempt to set up a government of its own.

Too Many Lawyers

"The trouble with Spanish politics is that there are too many lawyers mixed up in it. (Zamora is a lawyer). All members of the parliamentary bodies are lawyers, ready to quibble over little things. None of them is close enough to the people.

"Division in the ranks of the new party in power is feared as one source of danger to the new Spanish democracy. Since Republican and Socialist political organizations join hands to defeat the monarchists, there is a possibility that the new government may founder on the rock of internal discord. Spaniards remember, too, the short-lived republic of nine months in 1873, which ended with the recall of the king."

Praise was tendered Alfonso for averting a probably bitter civil war, but the praise was tampered with the reservatioin that the ex-monarch may cherish hopes of recovering his sceptre.

"Alfonso is a clever man," a prominent Spaniard pointed out. "Though he showed generosity in apparently abdicating, he may still anticipating a recall to the throne. In case of a conflict between political parties, there may be an overwhelming demand for his return."

Look For Better Times

A cross-section survey of the Spanish quarter here, representative of such quarters in America's large cities, revealed that the average Spanish-American is confident the newly formed democracy will better conditions in Spain. Economic life, one said, has always been jeopardized by political instability of the nation which should now give way to a sounder financial situation. With unemployment in Spain at a comparatively low Ebb, it was pointed out, the nation should become a greater power in Europe.

Peter Kuerten, Now On Trial Charged With Murdering Of Sixteen

(International News Service)

DUESSELDORF, Germany, April 16—Peter Kuerten, Germany's so-called "vampire slayer," who is on trial for his life here charged with sixteen murders, declared under examination by alienists today that his aim was to become "the greatest criminal in history."

The prisoner told the physicians he was planning to switch from individual murders to wholesale killings through bombing and arson when he was apprehended.

Kuerten is charged specifically with sixteen murders, police say he has confessed to forty-five.

Mrs. Dibble Again Stirs Epworth M. E.

Rousing Service Is Conducted At Pearson Street Church Last Night

Indications of a fine meeting were evidenced last night at the third service in the series conducted by the Dibble party in the Epworth M. E. church. Mr. Dibble led the congregation in singing one of the old favorites, "Draw Me Nearer", at the opening of the service. The choir sang a special number under the leadership of Mr. Dibble after which he led the audience in some of the choruses which are so popular. Mr. Dibble sang a fine solo last night. He used the well known tenor solo, "O Sole Mio", adding sacred words.

Mrs. Dibble spoke last evening on "God Marked Men". She said in part: "The people in the church are so much like the world that those outside do not want anything to do with the church. Christians live like the world, talk like it, mix with it so much that folks sometimes fail to find much Christianity. Folks want to make it so easy for them to join the church nowadays that they can join the average church and not change their program of living one single bit. Joining the church never got one a single inch nearer the Kingdom of God. The church has always stood for the one way of salvation, not through church membership alone but by the way of the Cross of Jesus Christ."

Meeting tonight at 7:30. Subject, "Winning the Lost."

Diamond Marquise Ring Worth $15,000 Missing From Costly Selection

PITTSBURGH WOMAN DEMANDS ACCOUNTING

(International News Service)

PITTSBURGH, April 16.—Missing—a diamond marquise ring valued at $15,000 and other costly items of jewelry, according to Mrs. Dorothy Russell O'Reilly Calvit, who is seeking to establish in a hearing which continues today that the late Alexander P. Moore, whose will he is contesting, as executor of his wife's estate, failed to account for the disposition of all the objects.

Certain objects in Mrs. Calvit's mother's Chinese collection also are asserted to be missing. In all, 121 items of the 756 listed in the catalogue as part of Lillian Russel's—Mrs. Moore's—estate, are charged by the former actress' daughter as missing.

At the hearing yesterday before Judge Thomas P. Trimble in Orphans Court, disposition of a necklace of 68 pearls, said by Mrs. Calvit to have been missing, was established by counsel for the Moore interests.

Contest of the late Ambassador's will was begun by Mrs. Valvit some months ago and is based on an alleged pre-nuptial agreement which Moore was declared to have formed with Lillian Russell, claims of missing items from her mother's estate were filed in connection with the contested will suit.

HOW TO GET RELIEF FROM CATARRH.

If you have catarrh, catarrhal deafness, or head noises, go to New Castle Drug, Eckerd's or your druggist and get 1 oz. of Parmint (Double Strength); take this home, add to it 1-4 pint of hot water and a little sugar. Take a tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to make, tastes pleasant and costs little. Every one who has catarrh should give this treatment a trial. You will probably find it is just what you need.

Teacher Salary Problem Before School Board

Indications Are No Increases Will Ge Granted To Teachers

NAME COMMITTEE TO MAKE REPORT

ELLWOOD CITY, April 16—The Board of Education at its regular meeting last night resolved to make its sacrifice as great throngs are doing in the community.

J. W. Offutt superintendent of the National Tube company revealed to the members of the sacrifice being made by people in the community. He suggested that the expenses in the schools must be cut down. If the salary increases must be met for the next school term he suggested decrease in the faculty. He explained that an unusual situation must be met with unusual means.

A committee composed of H. W. Smith, chairman, Blaine Hancher, W E. Bayers and J. W. Offutt was appointed by H. E. Helling, president of the board of education last night to study the problem of the present economic condition and salary conditions in Ellwood City and make a report within 10 days.

W. Ray Smith, superintendent stated that the salary schedule here is higher than the state law. The present rate of taxation does not warrant the salary increase for next year. Mr. Smith gives the following recommendation:

Superintendent's Statement

Board of Education,
Ellwood City, Penna.
Gentlemen:

It has come to my attention that certain board members do not favor any increases in teachers salaries for the coming year. For that reason I am taking the liberty of writing you this letter. During the month of February I sent out a "feeler" to our teachers relative to the coming year and at that time I stated that "Salaries next year would be based on the salary schedule now in operation". Therefore, it is my opinion that the present salary schedule should be maintained for the coming school year. I offer the following reasons:

1. That the salary schedule should not be revised at this late date for next year as our teachers know the schedule in operation and it would not be fair to them to change it now.

2. The majority of the schools in this part of the state are not revising their salary schedules for the coming year. Our present salary schedule is low as compared with other school districts in Western Pennsylvania.

3. I believe school boards should remember that teachers' salaries are not as susceptible to improvement in general business conditions as are other salaries. For the same reason they should not be cut when other salaries are being reduced.

4. Teaching has always been an underpaid profession. Increases in teachers' salaries have always been accompanied by higher standards of preparation, requiring large investments of time and money in professional education. They have never been able to maintain the standard of living which the character of their work calls for.

5. In the industries wages have been decreased largely due to a decrease in amount of work. The teachers' work has not been decreased, in fact it has been increased.

6. The quality of teaching largely determines the future of childhood. To do justice to the child it is necessary to do justice by the child's teacher. Good teachers make good schools, to change our salary schedule now would be to lower the morale of the teachers and that I am afraid would be unadvisable, as the right morale means so much to teachers who are working with children. The welfare and stability of our nation depends on a continuously effective educational system. To cripple the schools, even for a year or two, means an irreparable loss in the national health, stability, culture, leadership, and citizenship.

7. To follow the recommendations that were made relative to our teachers for next year which included increases provided for by law and by our salary schedule, and for additional teachers to take care of our increased enrollment would only require an additional $4.000.00 over the amount in our budget for the present year. This is remarkable

Board Of Education Session Is Lengthy

Many Matters Are Considered At Meeting Wednesday Night

ELLWOOD CITY, April 16.—Students from Wayne township and Koppel will be gladly accepted into the local high school, it was announced by members of the board of education at a very lengthy session last night in the Lincoln high school.

'It has become the rumor in those places that the board would not admit these students, and so action was taken to officially deny this.

It was announced that the general plan of night school was highly favorable and results are being shown. Although it was pointed out by Superintendent of Schools W. Ray Smith that the adult attendance was not so great as formerly but those people who were interested in their children were present at the sessions, which will continue for all of the schools.

The board decided to leave the matter of commencement preparations in the hands of the superintendent.

The winners in the recent music contest at New Castle will represent the local school in the county events at Oil City soon. Those going will be the members of the quartet, who are Don Cloak, Maurice Hayes, Robert Streeter and Chester Caldwell. Don Cloak is also entered in the trombone competition. These people have taken first place in their events at New Castle.

The request for using the high school athletic field during the summer by the mushball league was accepted by the board at this time.

The board will further consider the matter of hiring the school nurse for an additional month so that some work may be done before school takes up again next fall.

Secretary of the Board R. K. Mattocks announced that $29,000 worth of bonds were paid off this year and a like sum is expected to be paid next year. It was brought out that the Central school building will go over to the city by December 1 of this year.

All bills were accepted by the board and will be paid. Some new electrical equipment was purchased for installation and repair work.

Many Seeking Teaching Jobs

Fifteen Vacancies In Ellwood Schools—Eleven Already Filled

ELLWOOD CITY, April 16.—The matter of retaining and selecting teachers was taken up at the regular monthly meeting of the board of education last night.

For 15 vacancies in the present system to be filled the superintendent has received 226 applicants, and 11 have already been filled. The board is following the example of other cities and employing local teachers if possible. Six out of 10 recently employed are local teachers.

Four of the 7 teachers that have tendered in their resignations are resigning to be married. One teacher will be permitted to have her back pay at the end of the school year for educational purposes.

At the beginning of the next school term there will be 5 rooms more of children than usual. An estimate reveals that there will be 1975 children in the upper six grades for next year.

At an appointed hour a delicious luncheon was served by the hostess assisted by Mrs. D. G. Dambach.

Mrs. T. V. Barnes invited the club to meet at her home on Lawrence avenue in two weeks for their next regular meeting.

Controversy Not As Yet Adjusted

No Settlement Of Lincoln School Emergency Lighting Controversy

ELLWOOD CITY, April 16.—The long controversey over the emergency lighting system in the Lincoln auditorium has made no headway it was revealed at the regular monthly meeting of the board of education last night in the Lincoln High School.

An official report from the state department refused to accept the system. A representative of the installing firm stated that the only remedy for this would be to increase the water mains to the building and thus to increase the pressure.

Secretary of the board, R. K. Mattocks talked the matter over with Senator Weingartner recently and further action will be taken by the board.

The tile floor after being remedied during the Easter holidays is still in an unsatisfactory condition due to depressions in the sub floor as explained by a representative of the company. The board plans to remedy the present condition and definite arrangements are in progress for repair work following commencement.

No definite conclusion towards the installing of the fire alarm system was reached last night. The board has received a satisfactory bid for one building but not the other. The board will ask for a combined bid thus giving one company the opportunity to install both systems.

Vacant Lots To Be Gardened

Chamber Of Commerce Taking Lead In Community Garden Project

ELLWOOD CITY, April 16.—Vacant plots of ground are being offered for community gardens by owners of property through the yard and garden contest being sponsored by the Ellwood City Chamber of Commerce, it was announced this morning.

A number of vacant lots have been offered and have been distributed to persons requesting plots. More vacant lots are needed to be planted in flowers and vegetables by unemployed families. Anyone having ground to offer should notify the Chamber of Commerce offices.

The Woman's club has obtained a choice collection of seeds which they are offering to needy families who desire to enter the yard and garden contest. The seed collection includes five vegetable packets and eight flower packets. The vegetables included beets, carrots, turnips, radishes and lettuce, while such flowers as asters, nasturtium, California poppy, larkspur, zinnia, Sweet William, bachelors button and cosmos are included in the flower seeds. Application for seeds should be made direct to the yard and garden contest committee in care of the Chamber of Commerce.

Residents who can give employment to men for work in and about their yards and gardens are requested to do so. A list of available unemployed will be compiled by the Chamber of Commerce and every effort made to secure services promply.

Negro Cook Halts Abduction Of Girl

Chambersburg Cook Saves Girl From Abduction By Her Own Mother

WOMAN AND MALE COMPANION HELD

(International News Service)

CHAMBERSBURG, Pa., April 16—"Too many cooks" can spoil things other than broth—including kidnaping plans.

And one cook did just that here when, hearing cries for help, she ran into the street, jumped on the running board of an automobile, pummeled a man and a woman until they released an 8 year old girl they were trying to force into the car.

As a result, Mrs. Adelaide S. Rosenthal, New York City, and Franklin K. Cordell, of Pond Bank, near here, today are in the Franklin County jail in default of $2500 bail on charges of attempting abduction.

The Rosenthals were divorced here about a year ago. It was agreed their 7 year old daughter Marjorie, should live with the mother, but Rosenthal obtained custody of the girl and a sister last fall through the superior court.

Mrs. Rosenthal, police say, came here and with Cordell's assistance, attempted to abduct Marjorie as she walked home from school. Mrs. C. O. Cole, negro cook in a residence in front of which the attempted abduction took place, heard the girl's cries, ran out, and belabored Mrs. Rosenthal and Cordell. In the scuffle the child disappeared and the pair drove off.

License number of the car was observed by bystanders and police trailed it to near Waynesboro, where Mrs. Rosenthal and Cordell were taken into custody.

(International News Service)

PUNXSUTAWNEY, Pa., April 16—Police today began on investigation of the "gang-ride" slaying of Isaac Hamilton, 48, a barber and father of eight children, whose body was found along a by-road pierced with five bullets.

With few clues pointing to the motive for the murder, police believed Hamilton the victim of "a ride." He was seen, police were told, leaving his barber shop in the evening.

Authorities believed Hamilton entered an automobile, was slain in the machine and his body tossed out where, some time later, a passing farmer came upon it.

"I said: 'There is nothing left, sir.'

"The gentleman was astonished, and started to explain to me who he was, when the Duke of Miranda arrived and announced that the applicant was His Majesty the King.

St. Mary's Club Presents Play To Capacity House

Cast Produces "Applesauce" For Second Time In Finished Manner

Second presentation Wednesday night of the three act comedy "Applesauce" by Barry Conners by St. Mary's Dramatic club in St. Mary's Little Theatre, North Beaver street, was a decided success.

An audience that filled the Little Theatre was in attendance and thoroughly enjoyed the bright snappy lines of the play, which brought out the plot surrounding the love affairs of Hazel Robinson, which difficult part was taken by Rose McGahagan in a finished manner. The parts of Ma and Pa Robinson, parents of Hazel, as taken by Mrs. William Howley and Thomas Cunningham, were presented in a manner that appealed to the risability of the audience. Matt McAllister, wealthy uncle of Bill McAllister, was taken by Bernard Rogan, who presented this character in a manner that could not be bettered. Bill McAllister, who loved Hazel, but did not care so much for work, was presented by Francis Morrissey, who made a hit with his apt characterization, while Rollo Jenkins, the opponent of Bill McAllister for the hand of Hazel, was handled in an excellent manner by Thomas Flanagan. Mrs. Jennie Baldwin, who delighted in gossip and family troubles, was presented by Harriet Goodman, who caused the audience to be in a constant gale of laughter, while she was on the stage.

Vocal selections by Julia McCoy and Messrs. Francis Morrissey, Bernard Rogan, Steve Griffith and Jack Griffith between acts were thoroughly enjoyed. The excellent manner in which the play was produced was due to the training of the various participants by Rev. Fr. F. S. Clifford.

Bridge Controversy Is Finally Settled

Youth Saves Self, Swims Under Water As Gasoline Burns

Pittsburgh Youth Dives Into Fire-Swept River And Escapes Death

(International News Service)

PITTSBURGH, April 16.— John McNamara, 16, knows today how it feels to swim for one's life under a fiery sheet of flame.

While visiting a friend, James Clark, on the latter's houseboat, McNamara tossed an ignited match into the water after lighting a cigaret. A terrific explosion followed that hurled the lad into the water and coated the surface of the Monongahela river with a sheet of burning fire.

The river, gasoline-covered, became a layer of flame for 1000 feet.

Undaunted, McNamara dove under water and swam to safety with the flames above him.

Clark's houseboat was destroyed in the blaze, and damage of $200 was done to property of the Pittsburgh and Lake Erie railroad along the river bank.

Tells How to Get Rid of Rheumatism in 48 Hours

BIG 8 OUNCE BOTTLE FOR ONLY 85 CENTS

It Is Guaranteed

Thousands of well meaning people are taking the chance of being crippled for life with rheumatism.

When a rheumatic attack occurs they seek to deaden the pain with handy relievers—a method that usually ends with disastrous results.

Every rheumatic sufferer knows that painful, swollen, inflamed joints and muscles are caused by an excess of uric acid in the blood.

When you drive this troublesome uric acid from the blood you are getting rid of the cause of rheumatism—relievers won't do this.

While you are taking the nerve deadening relievers the uric acid continues to penetrate further and further into the joints and tendons leaving deposits so deep seated that they cannot be reached—this often means that the takers of drugs for relief only are disabled for life.

If every person who is afflicted with rheumatic manifestations would start at once to get the uric acid out of the blood—it would perhaps mean the avoidance of crippled joints in years to come.

This can be done by taking one tablespoonful of Allenru three times a day—Allenru acts on the blood and drives from it the uric acid that causes your rheumatic agony, and does it in 48 hours.

You can get a generous bottle of Allenru at Eckerd's of New Castle, Inc. or any progressive druggist for 85 cents—take it with every assurance that it is a real enemy of uric acid—and of rheumatic conditions—and bear in mind, if it doesn't do as advertised—money back. Allenru is just as good for sciatica.

Several Thousand Borrow Books From Mahoning Library

Report Shows That Circulation In Local Branch Library In March Was 3,758

Number of books changing hands at the Mahoningtown branch of the New Castle free public library during the month of March, 1931, was 3,758 according to the report submitted to the library board of trustees by Miss Alice Sterling, librarian.

A gain of 7 percent in circulation was made last month at the local branch, over the circulation figures of the corresponding month of a year ago.

REPAIR HOUSE

Workmen were engaged Wednesday afternoon in repairing and painting the front of a frame building on Mahoning avenue near the viaduct. The corner of the house had been damaged sometime ago when an automobile ran into it.

VISIT HERE

Mr. and Mrs. Harlan Haun, of Akron, Ohio, were guests Wednesday at the home of Mr. and Mrs. W. E. Weitz, of West Madison avenue.

LAYING SEWER

A drainage pipe was laid at the rear of the St. Lucy's Catholic church Wednesday afternoon, from the evespout underground to Wabash avenue.

Observations In 7th Ward

As far as ancestors are concerned, Tom is just cat. He isn't much to look at. His tail is skimpy, not at all like an Angora's and his fur is short and bristled, not at all like a Persian's. But when brains are considered Tom is all there and in fact is a very superior cat. And he truly is original.

For instance, every morning when his mistress, Mrs. L. B. Anderson of Madison avenue, leaves to work in a downtown restaurant, Tom follows very importantly. And every evening he returns home with her, satisfied that he is very necessary. If Tom is outside all that is needed to bring him in, even though he is a block away, is to call "Tom" and he comes on the run. No need to coax him with "kitty, kitty" and a saucer of milk.

The driveway from Mahoning avenue to the New Castle Tin Plant was given a thorough cleaning Wednesday afternoon.

An attractive crushed limestone walk has been made in front of the sub-station on North Cedar street, from the street to the sidewalk.

Joe, the pet poodle of the T. N. Hockman family, West Madison avenue, has absolutely refused to go to the cellar of the home since the explosion of some time ago. The little dog was in the cellar at the time of the explosion.

Did you notice the roadster driving around town Wednesday afternoon sans license plates on front and rear?

The firemen of the seventh ward department are proud to state that the tomato plant is getting along even better than could be expected. It has been given a nice place in the sun, upstairs in the department building, and is coming along in a fine way. Why it even smells tomatoish, they say.

Civilian Riders Make Many Trips Through Streets

Taking advantage of these beautiful spring days and cool clear evenings, scores of civilian riders have trotted through the streets of seventh ward on government horses used by Troop F 103rd cavalry. A number of local young men and women are sometimes among the riders.

The horse back riders start out on their evening journeys and Sunday morning rides from the Troop F cavalry stables, Scotland Lane, West Washington street extension. Sometimes they head for Covert's station and thence out to the Mt. Jackson road, down through Mahoningtown and up the hill north of here back to the stables. Quite often other routes are taken, usually taking the riders through this district.

SERIOUSLY ILL

Local friends have received word of the serious illness of Dean Lamson, of Mt. Jackson. Mr. Lamson had a heart attack Tuesday evening.

REPORTED ILL

Mrs. Denver Kephart, of Clayton street, is confined to her home by illness.

NEW SIDEWALK

Cement has been laid and marked off in front of two North Cedar street homes. One new strip is in front of No. 705 and the other in front of No. 709.

OFFICERS MEET

Teachers and officers of Mahoningtown Presbyterian church Sunday school department met in the church parlors Wednesday evening, following regular mid-week prayer meeting. They discussed plans and business matters regarding the department.

PITCHING SHOES

The "horseshoe links" of the seventh ward fire department were being used Wednesday afternoon by two enthusiastic pitchers. The links are located to the rear of the fire department, on Cedar street, and were in almost constant use last summer. It is likely that the game of pinochle, which has been amusing the firemen this winter, will be abandoned entirely soon, in favor of horseshoes.

TROUT SEASON

A host of Mahoningtown anglers took to trout hunting Wednesday afternoon in streams far and near. Several tried Taylor Run and others hied away to their secret nooks where they landed some whoppers last year.

CARD PARTY

The committee in charge of the card party to be held this Thursday evening in the Lyceum hall announces unusually attractive features. The favors for both cards and bingo have been selected with a view to their usefulness and beauty. Special prizes of value have been procured for bingo. Luncheon at a nominal charge will be served after the games.

ST. MARGARET'S

Spring house cleaning in the interior of St. Margaret's church was completed Wednesday evening. The work was inspected by the pastor and some visiting clergymen and all agreed that the cleaning was well done. Father Scholz expressed his gratitude, and stated that the cooperative spirit amongst the members of the congregation is encouraging and edifying. The following men and women took part in this spring cleaning: Lawrence Vatter, Joseph Diffley, Thomas Ronan, Carl Weaver, William Phillips, Mrs. Jesse Huff, Mrs. J. J. Sullivan, Mrs. Mary Jones, Mrs. L. E. Clark, Mrs. William Basterfield, Mrs. Robert Flowers, Mrs. William Phillips.

The exterior of the church will receive attention within the next few days.

NO MEETING

There will be no meeting of the W. A. G. club this evening as was planned. The meeting has been postponed and notice of the time and place will be made later.

TO START SOON

Collection of old magazines and papers will be started soon by the students of Mahoning school according to announcement. It is not known exactly when they will start as a railroad car must be secured in which to store the collected paper. The paper cannot be stored in the school building because of the fire hazard.

O. R. C. LODGE.

Members of the Ladies Auxiliary to the Order of Railroad Conductors are meeting this afternoon in the City building. This is the regular bi-monthly meeting of the lodge.

CLUB POSTPONED.

Meeting of the L. S. C. Book club, scheduled for Friday evening of this week has been postponed. The date for the meeting will be announced later.

Miss Mary Bryan Now City Nurse

Miss Mary Bryan today assumed her duties as municipal nurse to succeed Miss Eleanor Busang. Miss Bryan served during the illness of Miss Busang. Her appointment was recommended by Councilman C. H. Reeves and was unanimous. The selection was made about two weeks ago. Miss Busang left the city service yesterday.

Truck For Tin Cans Placed In Service

Commencing today a "tin can truck" will operate six of the seven days each month during the summer season, according to Howard Phillips, superintendent of the collection of garbage. Four trucks will collect garbage. Phillips states that no persons should place tin cans on sidewalks. "Leave them in the rear of your yard or on your own property and they will be collected when the truck reaches your residence," said Phillips.

Mrs. S. D. Pearson Talks To Members On Beautifying Of City Lots About Home

Wednesday afternoon the regular monthly meeting of the Highland Parent-Teacher association was held in the school building with Mrs. S. D. Pearson of the Garden club as the guest speaker.

The program opened with the presentation of a "Flower Exercise" by six girls: Elizabeth Shaver, Dorothy Homer, Gaynelle Weller, Jane Shilton, Dorothy Magill and Edwina Connery. A splendid paper on "Trees" was given by Phyllis Elder after which Mrs. H. S. Kison gave a report of the recognition service held for the naturalized citizens on March 26.

Miss Alma Locke then introduced the speaker of the afternoon, Mrs. S. D. Pearson, who gave a particularly interesting informal talk on "City Home Gardens", telling how the front lawn of a regular size city lot could be made to present a dignified, beautiful appearance by the addition of a hedge, a tree and some vines.

She urged the planting of a vegetable garden this spring and she also told of the great demand there is being made for seed by the unemployed of the city, in the project that is being worked out for the community gardens. Mrs. Pearson's talk was enthusiastically received by the women.

At the close of the program the election of officers was held with the result as follows:

President—Mrs. Harry McKee.
Vice—Miss Flora Treser.
Secretary—Mrs. Norman Ehrlich.
Treasurer—Mrs. C. D. Updegraf.

The May meeting will close the year. It will be an evening affair with Dr. C. C. Green as the speaker.

QUICK RELIEF FROM CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 20 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative safe and pleasant.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They help cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you should find quick, sure and pleasant results from one or two of Dr. Edwards Olive Tablets.

Thousands take them every night to keep right. Try them. 15c, 30c, 60c.

GETTING A START

Buying necessities keeps few men or families poor.

Indulging extravagant ideas ruins more savings resolutions than bread and butter.

Hundreds of people are always a little behind. For the sake of having a few luxuries a little ahead of time, they are continually anticipating their incomes.

By resolutely saving money, on a definite plan, it is not difficult to get a few hundred dollars ahead and then enjoy the satisfaction of being always flush instead of always hard-up.

Dr. Clendening Advises "Once Over" For Infant For Signs Of Rickets

Lack Of Sunshine In Winter Months Predisposes Baby To Ailment, Especially If It's Brunette

By LOGAN CLENDENING, M. D.

Your baby should be given a good inspection in the spring. Especially for the early signs of rickets. And especially if it is a dark-skinned baby.

Sunlight alone will prevent rickets. That is why it is a disease of spring. The cold winter days keep the baby indoors, unless especial efforts are made to overcome this tendency—and even at the best the winter days do not have much sunshine. The dark-skinned children have even less chance than the fair-skinned children of getting sunlight into the blood. And the brunette babies have the disease much oftener than the blondes. Rickets is not a gentleman.

In the late winter and early spring this lack of sunshine begins to have its effects. So it is important to make careful observations at this time. There are all stages of severity of rickets—mild cases can run into severe cases. And since it is preventable it is wise to catch it and arrest it in the early stages.

Head sweating and restlessness are among the earliest and minor symptoms. While in severe cases the bones are more affected than any other part of the body, the muscles may show some of the first signs. Muscular weakness, evidenced by unwillingness to sit up, or to crawl or walk is noticeable. The child does not hold its head up or sit erect. It makes little effort to handle itself or move its arms.

Irritability is marked. The appetite is poor, the bowels do not function, there is a slowing up of tooth development and growth. The soft spots in the skull do not tend to close and even the bony parts of the skull may be shown to be getting soft.

There is generally evidence of a chronically sick child, but usually without or with little fever. This latter is, however, not absolute.

Later the abdomen may become distended, and all degrees of this distention may be observed from the first stages of the illness to the last.

Late also come the bony changes. The enlargement of the ribs where they join the cartilagenous part of the chest, making a row of little knobs, called the rickety rosary, is a fairly constant finding. The wrists and ankles may swell and become painful to touch. And the skull assumes a peculiar square sort of shape.

Fortunately a search of early signs of rickets is rewarded, because we now know of two methods of cure which are sure and certain—one is sunlight as has been mentioned, the other is cod liver oil. They are equally valuable for treatment and for prevention. Your baby should have cod liver oil added to the diet from the time partial weaning is begun. If the disease is actually established the dose of cod liver oil is half a teaspoonful three times a day.

Summer Vacation Needs Planning Says Dr. Appel

"Less than two years ago, the average American citizens was not particularly interested in the price of an article. His main ambition at that time was to make as much money as he could, as easily as possible. And with the gold-spreading 'bull market' he made out very well indeed—until the bull turned," said Doctor Theodore B. Appel, State Secretary of Health, today.

"Then when the squeeze came the true value of the real dollar manifested itself with a very painful punch. So today, quite unlike his counterpart of twenty-four months ago, the American is looking with strained eyes for his money's worth. So hard has he been engaged in this optical pursuit, that the dollars he was still fortunate enough to possess at the time of the break took on too much glue, and thus sticking illogically in his pockets helped to cause the great depression which now appears to be definitely receding.

"It therefore seems probable that in the very near future, with both attitudes toward money passing away safely in history, the normal conception of a dollar's worth no more no less for a dollar will again develop.

"This fundamental economic principle can and should be applied to the question of summer vacations. No matter how much or how little currency one is planning to spend upon his annual sojourn, the real concern should be that one gets his money's worth out of it.

"And this is quite impossible to do, if the individual is prodigal of his vitality up to vacation time. The average two weeks at the shore or mountain can do much for one, provided he behaves sensibly on the visit, but it decidedly is not enough time to permit nature's reconstructive processes to make a thorough job of it.

"Therefore, in order to cash in on the vacation it becomes necessary to give some thought and consistent effort to the subject weeks and even months before the excursion. One should start building up his constitution now by daily taking long walks in the balmy spring air, by giving his body the nightly rest it needs, by eliminating devitalizing habits and excesses of all kinds: and in short, getting as much out of nature as is possible for him to obtain.

"Thus charged with vigor, vim and vitality through the simple process of living strictly according to the fundamental laws, the vacation will put on the finishing touches to a degree impossible under the popular method of starting on the pleasure trip more or less 'a wreck.'

"The above suggestion has everything to commend it. It is basically economically and humanly sound. Why not try it? Get your dollar's worth on this year's vacation by investing in health now. And thus perhaps discover for the first time in many years what it means really to live."

Women's Organization For National Prohibition Reform Meets In Washington

(International News Service)

WASHINGTON, April 16.—Pledged to vote wet regardless of party, the women's organization for national prohibition reform started a drive today to make prohibition the paramount issue in the 1932 presidential elections.

A thousand members of the organization were homeward bound to 32 states after a two day program of speeches, planning and wet agitation. Armed with an expression favoring prohibition repeal by Matthew Woll, vice president of the American Federation of Labor, and other leaders, they plan to take their cause to the women of the nation as based on "sanity" and the necessity for an end to a regime off "crime racketeering and lawlessness which is fast injuring the moral fibre of the nation."

Mrs. Charles H. Sabin, New York clubwoman and chairman of the organization, predicted phenominal increases in the reform group's membership and declared honest women voters would soon make it impossible for the politician to dodge the prohibition issue.

TEACHER SALARY PROBLEM BEFORE SCHOOL BOARD

(Continued From Page Fourteen)

considering the anticipated increased enrollment and the fact that increases during the past five years have approximately $15,000 per year. I am of the opinion that it will be possible not to increase Department "B" of our budget for next year.

If it is absolutely necessary to reduce our budget for next year all well and good, but my better judgment tells me that it would be best not to start with teachers' salaries.

Very truly yours,
W. Ray Smith,
Supt., of Schools.

Deadened Ball Fails To Halt Slugging By Big League Veterans

More Hits And Runs Made In Two Games This Year Than In 1930

Home Run Epidemic Continues Despite Precautions

By LES CONKLIN
International News Service Sports Writer.

NEW YORK, April 16.—Where, oh where, is the snail ball?

Where is that deadened horsehide with the raised stitches and heavier cover which, according to the big league moguls who approved it during the winter, was to curb heavy hitting and give the fans more of those 1-0 pitching duels which were the rage when you and Maggie and I were young?

Disillusioned major league hurlers subjected to severe shellackings in the first two days of the season, were asked these questions today. Where they didn't go so far as to sigh for the return of the jackrabbit, they were unable to see much difference between the 1930 and 1931 spheres.

Batting is Heavier.

Statistics reveal that during the first two days of the campaign 87 runs were scored in eight National league games and 82 tallied in as many American league contests, an average of more than ten runs per game. The hits totaled 329, an average of approximately 20 per game. The batting has been heavier than it was at the start of the 1930 campaign.

If that is baseball of the old fashioned variety, then Hack Wilson and Shanty Hogan can step up and qualify as tailor's dummies.

The only shutout turned in thus far was Burleigh Grimes' 4 to 0 win over Cincinnati yesterday. Two four-hit games, one by Charley Root and the other by Bump Hadley, were the only other noteworthy pitching feats.

Home Run Epidemic.

The home run epidemic continues unabated, with 18 chalked up in two days. Evidently Chuck Klein didn't read the papers all winter and nobody has told him about the alleged "dead" ball as yet. Dead or alive, the slugging Philly outfielder has lapped the field in the home run derby with three circuit clouts with the lid barely pried off the season.

The Cleveland Indians have done the most damage with their war clubs, gathering 30 hits in two games. The Braves have collected 29 bingles and the Giants and Browns 25 apiece.

Will Have Gun Shoot On May 2

Saturday, May 2, has been selected the date when the American Legion and Civilian Gun club of Struthers, Ohio, will hold an Old Timers Shoote at the Club Range. The range is located on the Struthers and Poland Center road, one mile from Struthers.

A unique feature of this shoot will be that only the old ball and cap muzzle loading rifle will be used.

TITAN TENNIS SQUAD REPORTS

Attorney Jos. McFate Is Again Coaching Racquet Team

(Special to The News.)

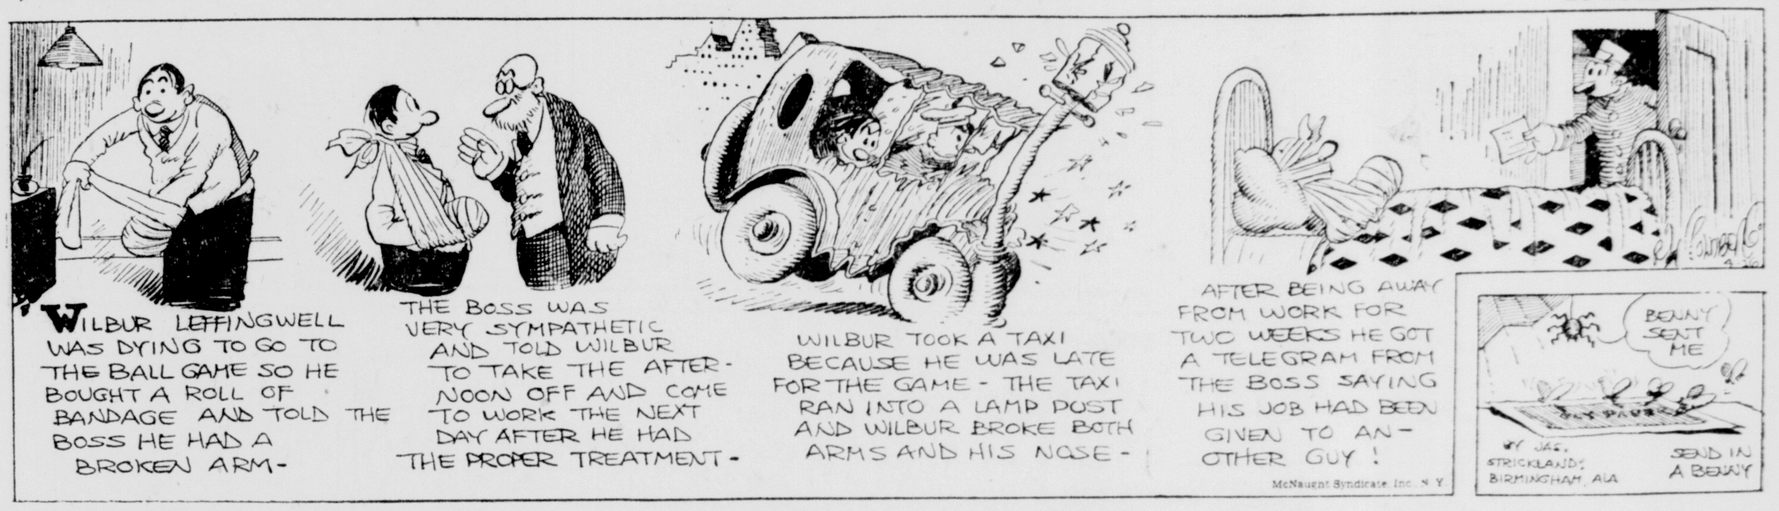
NEW WILMINGTON, Pa., April 16.—After three weeks of workouts on the gymnasium floor and on fraternity courts, the Westminster college tennis team will have the varsity courts available this afternoon and will report for the first elimination matches in preparation for the season which starts next week against Thiel.

Attorney Joseph R. McFate, New Castle, a graduate of Westminster with the class of 1926 and one of the stars on the Westminster tennis team which three times won the Tri-State conference championship, is again coaching the varsity racqueteers.

Veterans available include Captain John Witherspoon, Ben Avon; William Smith, Cambridge, N. Y.; David Findlay, Ben Avon, and Clarence Tiers, Pittsburgh. Others who should show up well are Frank Colegrove, Coraopolis; Hugh McCall, Youngstown, O., and George Marquis, New Wilmington.

Matches have been arranged with Thiel, Allegheny, Grove City, Geneva and Duquesne. The complete schedule, presented to the faculty committee on athletics last week, will be released on Saturday.

A SAD, SAD STORY — BY RUBE GOLDBERG



Brooklyn Team Is Crippled Up

Injuries And Flu Take Veterans From Dodger Lineup And Braves Win

KLEIN HITS HIS THIRD HOME RUN

By COPELAND C. BURG
International News Service Sports Writer.

NEW YORK, April 16.—These early season baseball wins and flops don't mean much more than the first furlong in a hoss race or the start of a prizefight but the jinx constantly at the heels of the Brooklyn Robins today appeared a real menace.

With part of the reserves already in the hospital and Fresco Thompson out with a spiked hand, Captain Glenn Wright and Rube Bressler yesterday fell victims of flu. Without their services the Robins lost again to Boston 9 to 3. Reports here were the malady is a mild form and precautions have been taken to prevent the entire squad from falling before the lethal germs. The loss of their captain excited the Flatbush birds so greatly they made seven errors.

The St. Louis Browns duplicated their opening day success, and won from Detroit, 6 to 4, Gray going the route on the Browns' mound. Burleigh Grimes was also right and hurled the St. Louis Cardinals into their second straight win, downing the Cincy Reds 4 to 0.

Klein Hits Third.

The Yankees made it a duo from the Boston Red Sox as Babe Ruth cracked a fly to right field, Dickey scoring to take it 8 to 7. The great man was angry because under the rules he did not get credit for a sacrifice and was charged with a time at bat.

Chuck Klein got this third homer of the season as the Phillies turned back the Giants 10 to 7.

Four hits was all Bump Hadley gave the champion A's and Washington triumphed 7 to 1.

Manager Rogers Hornsby smote a homer in the fifth to register a 6 to 5 nipping for the Chicago Cubs over the Pirates.

Fay Thomas, coast pitcher up with Cleveland, walked Watwood, the first man up for the White Sox in the tenth inning, Kamm sacrificed and Catcher Tate hit a double to score Watwood with the run that won for Chicago 7 to 6.

Titan Track Squad Tryouts Are Encouraging

Freshmen Will Help Bolster Cinder Path Team During Coming Season

(Special to The News.)

NEW WILMINGTON, Pa., April 16.—First track tryouts of the season at Westminster college yesterday were pronounced very encouraging by Coach "Zerk" Graham. A number of freshman candidates for the Titan cinder path team showed up well and give promise of filling the gaps made by graduation of a number of stars last year.

Captain Peresenyi, McCall and Hemer look best in the sprints; Rehfus, Fuller, Peresenyi, Fulton, Cleland, Kozicki, Siljander, Brownlee, Shaffer, Pattison and Bobby in the weights; Burry, Smalley, Burton, Coles and Kennedy in the distance runs; Myers, Williams and Harper in the middle distance events; Brownlee and Peresenyi in the hurdles.

In the high jump, Clark, Yourd and Warner are all showing up well. Banks, Yourd and Patterson look best in the pole vault. Siljander, Meister, Peresenyi have the best marks in the broad jump.

The best marks in yesterday's tryouts were 4:48 for the mile run, turned in by Jim Smalley, Elizabeth; 8 seconds for the 75-yard dash, turned in by Ken Hemer and Captain Peresenyi; 120 feet 2 inches for the discus, as made by Dick Fuller, South Milwaukee, Wis., and 170 feet for the javelin, made by Al Bobby, Farrell.

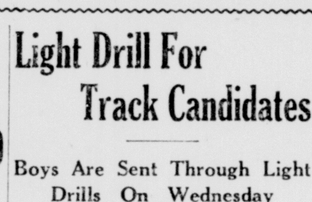
Light Drill For Track Candidates

Boys Are Sent Through Light Drills On Wednesday Afternoon At Taggart Field

Some 50 candidates are fighting hard in the hope of being among the few who will represent the New Castle high school on the track this season in the different meets which the local school is entered. Coach William L. Klee on Wednesday afternoon let his boys off easy at Taggart field.

Following calisthenics the boys were ordered around the track several times and then were excused. On Tuesday afternoon trials in the different events were held. New Castle's first meet comes on May 2 at Geneva College.

Among those who to date have made a creditable showing are Andy Lasky and Francis Wainio, weigh men, Luther Rowe, Louis Greensburg, Clifford Clemens and Scarazzo. Greensburg in the century looks good.



Pirate Snags baseball team defeated the Lutton "9" on the Home street field. The final score was 11-4. Johnny Ross had 10 strikeouts to his credit. Ross hurled for the winners.

The score by innings:

Snags	003 014 012—11
Lutton	001 003 000— 4

Home Street Stars baseball team will open the 1931 sandlot season on Thursday night by playing the Mercer Stars on the Franklin field. This team is composed of DeCaprio, Gairdo, DelRocs, Foster, Rozak, Genock, Conglose, Cavarricci and Baratierie.

Gridders Are Sent Through Scrimmage

Coach Phil Bridenbaugh Orders Spring Training Candidates Thru Long Drill

Erie Academy Has Eight Lettermen From Last Season; Has Good Reputation

A long workout which included a stiff scrimmage constituted Wednesday afternoon's drill for the New Castle high school football candidates who are training in preparation for Friday, April 24 when the local gridiron team meets Erie Academy in a night spring game at Taggart field. Despite the fact that he has lost several veterans from last year due to injuries, operations and illness, Coach Phil H. Bridenbaugh is rounding up a team that should give the lake region eleven a severe test.

The line appeared effective in Wednesday's scrimmage. The scrubs tried hard to penetrate the huge line of the varsity but were unable to pierce it. Offensively the first team was able to make the necessary 10 yards consistently. Nick Uram at quarterback was especially effective in slicing off tackle and on the double pass play.

Joe Wrona, a new comer at fullback, looked impressive in yesterday's workout. Despite his weight which is 160 pounds, Wrona hits the line with real power and it looks as though he will be Coach Bridenbaugh's selection for fullback on the eve of the battle Hib Reynolds and Tom Rambo are putting up a hard fight for the interference half post. Gene Burns, former George Washington Junior high gridder and William McIvor are trying for the other half post.

Patsy James has also been making a creditable showing at fullback and halfback. Johnny Uram is a second string quarterback. Due to the fact that Askounes is out of the lineup definitely due to an operation, Coach Bridenbaugh has shifted Jimmy Mike at tackle along with Harry Crisci.

Frank Babiarz, another new comer has attracted the eyes of Coach Bridenbaugh and Babiarz may get the call for one of the guard berths. Workman so far looks good for the other guard position. Ostrosky, Kazenski and Willie Ciccone are fighting it out for the end posts on the varsity eleven.

Fred Hileman regular end from last season reported to practice on Tuesday for the first time and is still weak from an operation for tonsils which he underwent only recently. If he gets into condition by April 24 he may start the contest otherwise the other three boys will try to land his post. Ciccone has been unable to practice the past few days due to a severe cold which has settled in his eyes. He is improving and it is believed that he will be in good condition for the fracas.

Andy Lasky who has also been eliminated from the spring contest due to an operation is training on the track daily and will likely report for football next fall.

Erie Academy will come here with eight lettermen from last season, six of which are regulars. Last season Erie lost the city title to Erie East 6-0. The loss of the title marked the first time Academy lost the crown in a period of 10 years. That defeat was the only one of the season. Another victory for Academy was one over the highly touted Youngstown Chaney. Academy also trimmed Richmond Academy of Augusta, Georgia 18-0 in an intersectional contest.

Academy has acquired a reputation throughout the scuth and has four intersectional battles carded for next season. Erie has been preparing for this game for the past few weeks and according to the dope received will come here with its strongest lineup in the hope of checking the local team.

Cliff Bolton, New Senator, Making Good With Mask And Mitt

By JACK SORDS
Central Press Sports Artist

With Wally Schang, Mike Gonzales, Ralph Perkins, Bob O'Farrell, Val Picinich and Muddy Ruel bearded veterans of the mask and mitt trade, still flourishing behind big league plates the impression has been created that no youngsters of first class catching talent have come up to the majors this season.

It ain't so, Joe, it ain't so!

There's a flock of fine young receivers whose names will sprinkle big time battery reports this season. And neither major league has a monopoly on the new talent.

Ernie Lombardi, the new Brooklyn backstop, now appears to be the pick of the lot. But there is also Cliff Bolton whose receiving in training camp has been one of the brighter lights of the Washington Senators' spring practice stint.

Lombardi came to the Dodgers with a big rep built up on the Pacific coast. Bolton, fresh from Chattanooga, has sprung from minor league obscurity to a job with a first division American league outfit.

Bolton is a heavy hitter. That's how he first attracted attention of Solon scouts. He sought to be a big help this year.

The Giants have another likely youngster in Frank Healy. Young Healy has already given promise of making Frank Hogan scamper for the first string job.

Gene Desautels, ex-Holy Cross star, has landed with the Tigers, while Eddie Connelly, 22 year old Brooklynite, seems to have made good with the Boston Red Sox.

Connie Mack has two fine prospects for this Athletics in Joe Palmisano and Frank Leslie. Frank Grube has landed with the White Sox, and Earl Grace looks like a Cub regular now.

No new catching talent? Get out.

HERE AND THERE IN SPORTS' LAND

WRESTLERS invaded Pittsburgh last night and a nice crowd turned out to see the mat artists in action. In the two most important bouts Dick Shikat, 221, Philadelphia, threw Andy Zaharoff, 221, Russia, with a body hold in 11 minutes 14 seconds and Jim McMillen, former University of Illinois grid player, tossed Young Romano, of New York, in 20 minutes and six seconds. McMillen used a flying tackle. McMillen weighed 211 and Romano 198.

ALTHOUGH complete reports have not yet arrived from fishermen who wended their way along various county streams yesterday a nice quantity of trout was taken. Taylor Run apparently was the favorite creek but many of them journeyed to Deer Creek. Last night the writer tried his luck and the best he could do was to catch a couple chubs. There are trout in the Little Neshannock, Big Run, Taylor Run, Slippery Rock and other county streams.

Girl Swimmers Seek Records

Leading Girl Swimmers Of Nation Will Compete In New York City

HELEN MADISON TO HOLD SPOTLIGHT

By MICHAEL J. FOSTER
International News Service Sports Writer

NEW YORK, April 16.—Helen Madison, the Seattle girl who, at the latest reckoning, was the holder of something like fifteen world's records, will show New York how she does it tonight, up at the pool of the Women's Swimming Association.

The coast speed-queen heads a brilliant array of mermaids from all parts of the country, who are here to take part in the annual four-day Women's National A. A. U. indoor swimming championships.

Miss Madison will defend her title as 100-yard free style champion, in the feature event on tonight's program. Eleanor Holman W. S. A. star, will be the defending champion in the 300-yard medley race.

If Josephine McKim, the Los Angeles Athletic club beauty who is expected to furnish Miss Madison with her sternest opposition in the sprints, presses her hard enough, Seattle's great champion should break her own world's record of 60.8 seconds in the century sprint.

Catherine Ames is the only W. S. A. entrant rated a chance of taking record place away from Miss McKim. Olive Hatch, another L. A. A. C. starter; Helen Hendry, of Brookline, and Marjorie Low, L. A. A. C., are other prominent entries in the century.

With Jane Fauntz, last year's title-holder, out of the competition, Georgia Coleman, of Los Angeles, is an overwhelming favorite to capture the diving laurels.

Many Entries In Geneva Track And Field Meet May 2

Some 25 Schools Have Already Accepted Invitations To Compete In Meet

(Special to The News)

BEAVER FALLS, Pa., April 16—The Geneva Interscolastics to be held on Saturday May 2nd, gives added proof daily of being a success. Already entries have been received from twenty five high schools in the Tri-State district.

Fifty schools, Class A, B and C were represented last year by about 1000 athletes and even more are expected at the annual occurrence this year. More recent entries are Rayen and South High schools, of Youngstown, Ohio, Technical and Strong Vincent High schools, of Erie, Pa., and the strong team from Connellsville, Pa.

The New Castle high school has accepted an invitation to compete in this meet which is expected to be one of the most successful ones in the history of track meets here.

Each motorist, it is advanced, should have his tires inspected on a specific day each week. If this is discrimination against the brakes, steering gear and headlights it is probably not intentional.—The Pittsburgh Post-Gazette.

RAZOR AD-VENTURES
by don herold

My only kick is it doesn't hurt

IT worried me at first because my new Gem Micromatic Razor didn't hurt. I was shaved before I knew it.

I was one of those men who think they have to suffer through their shaves. I had the hero habit. I was actually proud of that morning shaving pain.

So when I got this new Gem Razor and it went through my whiskers as if it were greased, I missed something. I missed my suffer. You can't get self-pity out of this razor—all you can get is perfect shaves.

The Gem Micromatic is a new sensation in shaving that you ought to gamble a dollar to try.

Chicago Again Trims Pirates

Bob Smith Outpitches Willoughby, With Hornsby Winning Game By Homer

TWO VICTORIES FOR CUBLETS

WRIGLEY FIELD, Chicago, April 16—The Chicago Cubs again downed the Pittsburgh Pirates. This time it was 6 to 5 and Manager Roger Hornsby had a finger in the pie with a home run drive that broke up the game in the fifth inning. The Pirates rallied in the fifth and sixth innings, but fell short.

Bob Smith, former Bosten pitcher was on the mound for the Cubs and had the same jinx over the Pirates as heretofore, he allowed but seven scattered bingles. Willoughby pitched for Pittsburgh and was found for ten safe blows, three of them for extra bases.

Manager Ens was up against it yesterday for pitchers with Keemer and Brame both ailing, and was forced to select the former Phillies moundsmen to do the sharpshooting.

KNUTE ROCKNE'S BEST STORIES

As Told By
DON MILLER
One of the Famous Four Horsemen of Notre Dame

Knute Rockne, like all coaches who are at any one school for a considerable time, was often bothered by honest but useless advice from over-zealous alumni.

I recall a remark he made over the radio some short time before his death which illustrated Rock's reactions to the "eternal under-graduates."

He was asked if he ever left Notre Dame where would be like best to go and coach.

"Sing Sing" he snapped, "the alumni never come back."

The last time I heard Rock's best alumni story was at a luncheon in Cleveland, a short time before his death.

There was an old grad said Rock—up in the stands last autumn watching that great 1930 team smash into a strong foe.

"Listen," the grad told a friend who was seated next to him. "I know Rock's system from A to Z. Now watch this next play. A pass to Brill."

Savoldi lashed through off tackle for a long gain.

"Now," said the grad, not the least perturbed, "Carideo will send Savoldi right back again."

Schwartz went around end.

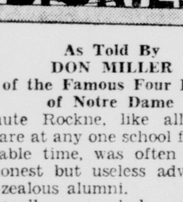
The old grad blinked, but he wasn't licked.

"Great," he grinned, 'now watch Schwartz on a spinner."

Carideo hurled a long pass which Conley caught and downed almost at the goal line.

"Well," the friend sneered, sarcasm in every word. "Mr. Assistant Coach, what are they gonna do now?"

"Heck," came the answer, "I brought 'em up to the goal line. Let 'em put it over themselves."



Tim Says:

"Fellers, wait'll you see the new sleeveless slip-on sweaters, white and all colors, $1.95 and $2.95. Gee, they're hot!"

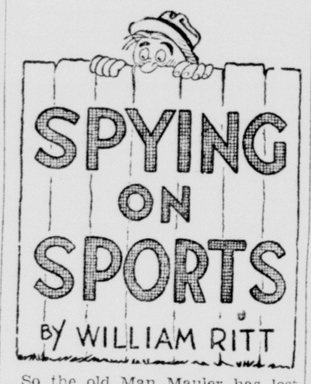
CHOIR BOY HERO

(International News Service)

NEWARK, N. J., April 16.—A choir boy was the hero of a fire in the Church of Our Lady of Mount Carmel here. When draperies about the altar burst into flames Frank Vircidomini, 12-year-old choir boy, confidently raised his arm and motioned 200 excited worshippers back into their seats. Then he reached for a fire extinguisher and put out the blaze.



So the old Man Mauler has lost another decision!

After six years of apparently happy married life, the romance of Jack Dempsey and Estelle Taylor his motion picture actress wife, seems to be staggering from a knockout blow.

Jack's in Reno, Nev., where divorce is more than a casual occurrence. Estelle is in Hollywood where the famous pair once planned to make a permanent home. Somewhere between those towns the romance which interested the fight fan and thrilled the movie goer, six years ago, has faded.

Big Jack, who likes kids, is a soft touch for any hard-luck yarn, a sincere friend and an excellent host and pretty Estelle, quiet, clever, serious and ambitious couldn't make a go of it, the story goes.

Too bad.

* * *

WHY?

Probably only Jack and Estelle know. Anyway, it's really their business and no one else's. But divorces among the celebrated is big news in these piping times and already many a sob sister has massaged her typewriter at top speed to give a waiting public the 'real reason."

Between us, it seems most logical that the fact that Jack and Estelle were going different paths may have precipitated the break.

Jack had reached the pinnacle of his profession years before he met Estelle. In these latter days he has been well along on the wrong side of a great career. His wife, at the same time, has been advancing in her career.

Jack is quoted as saying he wanted a home, a settled life and a family. He is further quoted as saying his wife preferred to pursue her ambition, an operatic career. She was shooting for the top that he reached more than a decade ago. Two stars one rising and the other in decline. By natural law, such stars meet, pass—and part.

Boro A. C. Team Meets Tonight

Tonight at 8 o'clock the Boro A. C. baseball team will hold an important meeting at the Boro Council room. The following are asked to attend the meeting—J. Dunkerly, C. Duncan, G. Duncan, Shoaf, Smithy, Bluedorn, Wilson, Baker, Clements, Phillips, Fruitt, J. Leckwart and any others desiring a tryout with the Boro team. John Leckwart is manager of the team.

BOWLING COLUMN

The City Duxpin League has ended its season. The games rolled last night were the final ones of the year. The News-Haney team won the first half of the league season, and the Shenango Pottery won the second half by nosing out the Pennsy Railroad team, in a close and hard fought match.

The League has been a big success this year with six teams in the circuit. Some mighty fine matches were rolled.

The News-Haneys and Shenango Pottery will roll a series of games for the championship. There is quite a bit of interest in this playoff match.

THREE CLUBS MAY BALK EFFORTS OF CHAMP CARDS

The St. Louis Cardinals, National league champions, have slim chances of repeating their 1930 triumph this season. Three strong clubs—Brooklyn Robins, Chicago Cubs and New York Giants—bar the way. The Pittsburgh Pirates and Boston Braves may also get into the pennant fight. None of the eight National league managers is new to the helm of their 1931 clubs, Rogers Hornsby starting his first full year as boss of the Cubs, managed them for the final series of last season.

Ball Yard Banter

Hack Wilson, goes the report, has been told by Rogers Hornsby to forget home runs this season and try to repeat that 191 runs driven in mark of his. All of which comes under the head of excellent strategy.

* * *

However, Hack, 'tis said, no like the idea. Having tasted home run celebrity Wilson is reported eager to to perform greater homeric deeds.

* * *

Whether this state of affairs has or will precipitate friction between the two vital question for the Chicago Clubs. The club, with championship aspirations, badly needs a happy, contended Hack in the lineup this year.

* * *

In a difference between the pudgy Wilson and the powerful Hornsby we'd bet on Rogers. He has a way of getting what he wants.

* * *

More likely, Rogers' order resulted from Hornsby remembering the case of Babe Ruth and the Yankees several years ago. The Yanks were 'way ahead of the pack and Babe Ruth was headed for another home run record. Then something snapped.

* * *

The Yanks lost an alarming lot of games and the A's drew abreast Ruth quit going after home runs, preferring two singles to a circuit smash.

* * *

The Yanks found their feet again and went on to win the pennant. Ruth did not set a new record that season but his team won. In a hot pennant fight the timely single is worth a dozen meaningless homers.

To Refund Part Of School Tax

School taxes on the property of the First U. P. church, Clenmore boulevard, will be refunded for the period from May 18 to December 31, 1930, or for that part of 1930 that the ground was used for worship purposes, the local school board decided last night. The board held the property taxable for the first part of the year.

A request asking the board to refund the school taxes for 1930 was presented by the church trustees.

According to an opinion by Attorney W. J. Moffatt, solicitor for the board, church property becomes exempt only when it is being used for worship purposes and not while construction work is under way.

NEW YORK STOCKS

Little Change In Early Stock Prices

(International News Service)

NEW YORK, April 16.—Active stocks in all sections of the market settled down to a lower level of prices this morning as a liberal sprinkling of selling orders flowed in over the bigboard. Losses in the favorites were mostly fractional and the volume of trading was only slightly heavier than in the last two days. Professionals were on the selling side of the market, but once again selling pressure tapered off considerably as the second hour advanced.

United States Steel's new drop to 132⅛, down 1¼ from Wednesday's close, brought the stock to the lowest level of the year and fractionally under the low price of 1928. The balance of the Steel group, including Bethlehem, Crucible and Vanadium, held fairly steady. Copper, Oil, and Electric stocks were inclined to rally, but the Utilities fell off about a point on the average.

Fox Film staged a slight recovery and moved ahead a point in the first period on president Clark's statement that the 4 per cent dividend was not in danger. Paramount was under pressure and lost about 2 points at 37½. Loews and Radio Keith held fairly steady until the second hour, when they joined the downward move.

That United States Steel and Bethlehem both harbor a large short interest in evident from conditions in the stock loan crowd. Heavy borrowing demand for both stocks was reported at the close of yesterday's session, and further short selling took place today as the bears opened up their heavy guns on these and other Industrial favorites. North American lost 1½ and Westinghouse was down about a point at 76½.

Cotton recovered about 6 points and Grain prices settled fractionally lower. Call money was unchanged at 1½ per cent.

People Paying Taxes Promptly

Louis McClung, treasurer for the city of New Castle, today reported that taxpayers are meeting their 1931 obligations in a good manner.

"The people are paying their taxes, and so far a considerable amount of money has been paid in," said McClung.

It will be several days before it will be possible to determine the exact amount which has been paid in.

This will be determined as soon as books for the first half of the month are balanced.

The court held with Riggs on that point.

The judges reasoned thus:

Mutual promises to marry need not be in writing, but an agreement that was not to take effect until five years later surely falls within the statute, and should have been on paper.

Racket Chief In New York Slain

Coney Island Cafe Is Scene Of Murder As Gunmen Pump Bullets Into Victim

REPORTED TO BE CAPONE'S ALLY

(International News Service)

NEW YORK, April 16.—A violent gang war was predicted in New York today as the aftermath of the killing of Giuseppe Masseria, known as Joe, the Boss." He was said by police to be an ally of Al Capone and worked with the Chicago gang leader in the liquor business, racketeering and gambling.

Masseria was shot to death in a Coney Island cafe by two well dressed young men who calmly walked into the restaurant and began shooting. They fired 20 shots and five struck Masseria—all in the back. He was found dead near an overturned card table.

Find No Clues.

The killers walked leisurely out of the cafe and escaped in an automobile although 50 detectives surrounded the cafe shortly after the shooting they uncovered no clews at the identity of the slayers.

An armored steel car, equipped with bulletproof glass an inch thick, in which "Joe, the Boss" was said to have traveled to protect him from many enemies, was found near the scene of shooting. Police said they believed three of the Masseria gang, who had been with their chief in the cafe, might have hired the two young men to kill Masseria.

"Joe, the Boss" was free under $45,000 bail as a material witness in the killing of two men slain in a feud over a police racket, authorities revealed. He had been arrested often on suspicion of burglary and suspicion of extortion and once served a term in Sing Sing for burglary. He was arrested twice for homicide and was questioned after Frankie Uale and Frank Marlowe, two liquor racketeers, were slain.

The prison population of the country has almost doubled in the past 25 years.

(International News Service)

SAN DIEGO, April 16.—Trial on charges of violating the juvenile court laws today faces Alexander Pantages, theatrical magnate, and his four co-defendants.

They were bound over yesterday by Justice of the Peace A. H. Mundo, following a hearing out of Hollywood's sensational "Girl Bazaar."

Justice Mundo said from the bench that while the case against Pantages, Jesse Shreve, John P. Mills, Olive Day and William Jodel Ann, was not "the strongest" he had ever heard, he did feel that a case exists.

Pantages faces charges of conspiracy to violate the juvenile court. A felony, a violation of the juvenile court law, a high grade misdemeanor.

Coal Loadings And Prices Are Down

(International News Service)

ALTOONA, April 16.—Loading figures on coal in the central region of the state today showed that 17,166 cars were loaded to April 11 against 20,295 to the same date in March and 21,563 to the same date in April last year. With both loadings and prices down, no upward tendency in coal production was noted in the central area.

Even good drivers are constantly being jammed into damage suits—whether they deserve it or not, cuts no figure. But the figure the jury brings in, does!

Cobb's Wife Is Seeking Divorce

"Ty" Cobb's Wife Reported Files For Divorce From Former Big League Star

EX-BALL PLAYER QUITE SHOCKED

(International News Service)

MONTEREY, Cal., April 16.—Tyrus Raymond Cobb, the erstwhile "Georgia Peach" of baseball fame, today was reported enroute to his home in Macon, Ga., where his wife has filed suit for a divorce.

Upon leaving here yesterday, the man who has broken more records in baseball than any other, expressed surprise at his wife's action.

He said:

"I am surprised and shocked to be placed in my present position. A statement from me at this time comes very hard. I have always loved my wife, my children and my home. I am sorry that such apparent hasty action as this was taken in my absence from home and before consulting me in the matter.

Was Hunting Home.

"My present trip to California was to open the San Francisco baseball club ground and to look for a home with a view to living here."

In his wife's divorce suit, filed yesterday, Cobb learned the charge is mental cruelty. Mrs. Cobb asked temporary alimony and the custody of their four children, Shirley 19, Herschel 14, Beverly 11 and Howell 9.

The Cobbs were married in 1908. Cobb retired as a major league ball player in 1928.

Health Officer To Submit Milk Report

Keeps Close Check On Milk Which Is Sold In This City

When city council meets Friday, Dr. W. L. Steen, municipal health officer, will deliver a report covering milk sold here during March. The city bacteriologist makes many tests of milk each month.

Good clean milk should contain less than 25,000 bacteria and dirty milk may contain enormous numbers of bacteria, the report states.

Pasteurized milk should have less bacteria than raw milk as the pasteurization kills the bacteria.

Raw milk which contains more than 100,000 the report states, is classed as insanitary and sale is prohibited here.

Pasteurized milk, which has more than 50,000 bacteria is classed as insanitary and its sale is also prohibited here.

The report shows that in certified milk of Dr. Taylor, Everglad, the bacteria was less than 1,000 bacteria.

Oil Policy Is Under Fire In Supreme Court

Hoover Administration's Policy Of Conserving Oil Is Attacked

(International News Service)

WASHINGTON, April 16.— The Hoover administration's policy of conserving oil on public lands through refusal to grant prospecting permits was under fire in the supreme court today.

Arguments are being presented to the court in four cases, in which unsuccessful applicants restored to the courts.

The appealing applicants maintain that President Hoover's announcement that his administration would conserve oil on public lands did not amount to a withdrawal from entry, and that Secretary of Interior Wilbur usurped the power of Congress in refusing permits under the leasing act.

Assistant Attorney General Richardson is contending the press announcement of Mr. Hoover constituted withdrawal and that Wilbur has full discretion to deny applications. Secretary Wilbur heard part of the argument.

LOOKING BACK
IN NEW CASTLE

Something like a hundred years ago, there was a burial ground on North Jefferson street just on the crest of the hill at the south side of the ravine located just beyond Wallace avenue.

Its existence has passed out of memory of mose of the people residing here at the present time, and to whom it belonged or what is was called has been forgotten by most of the boys and girls of seventy years ago, who can remember that such a place existed in their childhood, but that is about all.

The possibility is that it was the burial ground of a group of people residing in that vicinity, or it may have been a family burial plot such as existed as many points in this section.

At any rate it fell into disuse and all indications of it have vanished in the improvement of Jefferson street and Wilmington avenue at their Junction just north of Wallace avenue.

Tomorrow:—A fairground and a race track that few will remember.

SHOW LAMP COLLECTION

(International News Service)

MUNICH Germany, April 16—The Great German Museum has added an interesting feature to its exhibits in the shape of a collection of street lamps. The collection starts with the first street light used in Paris, a pitch basket. The oil light is represented by an old rapeseed oil lamp. The third, gas light with five flames, was used in London in 1814. The collection includes lights down to most modern incandescent lamps.

At the beginning, philosophy and science were intermingled.

450 MILES ON A GALLON OF GAS

The president of the General Motors Research Corporation, in a recent article, points out that there is enough energy in a gallon of gasoline, if converted 100% in mechanical energy, to run a four cylinder car 450 miles. Much experimenting has been done to convert this latent power into mechanical energy, but at present the annual waste in gasoline is appalling. In an effort to conserve gasoline and to increase motor efficiency, the Whirlwind Mfg. Company has perfected an invention that slashes gas costs to the minimum. They are launching a campaign to equip every car with this wonderful invention and are now appointing agents and offering a free device to those who help introduce it. For full particulars write The Whirlwind Mfg. Co., Dept. 92-S Station C, Milwaukee, Wisc. today.
